

COURSE & PATHWAY DESCRIPTIONS

DIGITAL MEDIA TV PRODUCTION COURSES

- TV Production 1
- TV Production 2
- TV Production 3
- TV production 4

DIGITAL MEDIA TV PRODUCTION

The Digital Media/TV Production program is under the direction of Mrs. Debra Rein-Cavagnaro a Certified Apple Final Cut Pro Trainer who teaches students practical skills in recording and editing video. Our students' short films have won many prizes at the local, regional and state levels. The students produce a daily news show that keeps Osceola Warriors informed and entertained. Our students learn skills that include script writing, lighting, camera operation and audio engineering, video editing, producing and directing. The students are responsible for the daily broadcast of the award winning program, O-Town Live. Our goals include developing solid production basics while providing a challenging curriculum for advancing students and improving overall job skills. Using our production studio and professional quality ENG/EFP/DSLR cameras, our students learn a multitude of valuable job skills. Students that move into the upper levels of television production will have the opportunity to learn industry standard software such as Final Cut Pro, Adobe Premiere Pro and After Effects. It is the goal of levels TV 3 and above to learn and certify in industry standard editing software Final Cut Pro X and Adobe Premiere Pro.

Successful completion of three years of TV Production courses allows students to be eligible for the Bright Futures Gold Seal Scholarship designation on their diploma. Osceola Digital Media/TV Production students will have the opportunity to earn valuable college credit through a partnership with St. Petersburg College. Dual enrollment Video Editing will be offered for Osceola students on our campus. Students looking forward to careers in broadcasting, technology applications and even management will benefit from the program.

TELEVISION PRODUCTION

The purpose of this program is to prepare students for initial employment as television production operators, television broadcast technicians, camera operators, all other professional/ paraprofessional technicians, video recording engineers, audio recording engineers, or to provide a foundation for college degree path opportunities in the television production industry. The content will include communication skills, leadership skills, human relations and employability skills, safe and efficient work practices, and preparation to assume responsibility for overall production of television studio activities including: scripts, lighting, taping and directing, electronic news gathering, and field production. This program focuses on broad transferable skills and stresses, understanding and demonstration of the following elements of the television production industry: planning, management, finance, technical and product skills, underlying principles of technology, labor issues, community issues and health, safety, and environmental issues. Laboratory activities are an integral part of this course and provide instruction in camera principles, audio and video control, lighting methods, control room, operation, and set preparation.

For a complete description of each course, see the OFHS Curriculum Guide, which is found on the school website.

PERSONALIZED LEARNING

CREATING A LASTING SHIFT IN LEARNING

Pinellas County Schools has launched Pinellas Innovates: Pathways to Personalized Learning, a long-range plan to personalize learning throughout the district.

Personalized Learning is tailored to what when, where and how students learn best. It enables students to take ownership of their learning and helps them to develop deep connections with each other, their teachers and other adults.

Pinellas Innovates will transform what the district is doing in schools on a daily basis. Instruction will move beyond a one-size-fits-all approach. Learning will be paced to each student's individual needs.

VISION

Pinellas County Schools envisions a student-centered culture for learning that connects instruction, curriculum, and outcomes to the unique talents, skills, passions and attributes of each child while recognizing individual needs.

STUDENT VOICE & CHOICE!

CLUBS

Future Business Leaders of America (FBLA) is the largest student business organization in the country with over 250,000 members. FBLA is the premiere student organization that aligns with all Warrior Academy courses. In Florida, FBLA functions as an integral part of the instructional program of the business education program in secondary schools.

NLC National Winners

Fall Motivational Rally

Students involved in FBLA participate in a variety of competitions, community service projects, fundraisers, and networking events throughout the year.

National Technical Honor Society

NTHS helps members with their achievements in the workforce, offers scholarships for higher education, and teaches excellence in career and technical education. NTHS strives to bring well deserved recognition, scholarship opportunities, and career opportunities to students who excel in various career and technical educational fields as their profession.

Student Television Network

STN was started by a group of teachers who wanted to support and encourage scholastic broadcasting and to provide a forum for teachers to share ideas, ask questions, and learn from professionals in the industry. Over the past 15 years, STN has expanded to include film, media and other forms of communication taught in high schools and middle schools. STN serves teachers and students with curriculum, communication and competitions year-round.
