

Good evening STEM Academy teachers and families. This is Laura Spence, PCS K-12 STEM Specialist.

As you know, Pinellas County Schools has been working diligently to manage the rapidly changing situation surrounding the COVID-19 health crisis.

Unfortunately, due to current recommendations and restrictions from the Department of Health and the Department of Education and in alignment with guidance from the Centers for Disease Control and Prevention, we have had to cancel our weekly after school STEM Academy sessions as well as this year's STEM Expo that was to be held on Saturday, April 25th.

I realize this is a disappointment for teachers, students and families. Please know this was a difficult decision but, it was made with everyone's best interest in mind. The health and safety of our students and staff is our highest priority.

I appreciate your patience and understanding as we work through this challenging time.

If you have any questions, please call me during normal office hours at 727-588-6338.

Thank you,

Laura Spence
