District**	1498	1163	-335				1185	1014	-171	*Data represents the end of September of 2016-17 but represents the first 35 days for 2015-16 because each school year did not start on the same day. This 35th day represents the number of school days from the first day of school in 2016-2017 (8/10/2016) to the end of September 2016. Due to changes in the school-year calendar for the 2016-2017 school year, a direct month-to-month comparison would not be appropriate. Therefore in order to make an appropriate comparison to last year, the 35th day of the 2015-2016 school year was identified (10/12/2015) and used as the cutoff for the discipline data. **The DISTRICT totals in the month-over-month chart may not match the TOTALS from Elementary, Middle and High Schools because the district totals include ESE centers and those centers are not included as "elementary," "middle" or "high schools."
