

Principal's Message August 26, 2024

Hello Starkey families,

Today, August 26th, our school conducted a practice emergency drill. We have also completed a fire and a severe weather drill this school year.

All drills were successfully conducted with staff members guiding students through the appropriate actions for preparedness. Drills help everyone know what to do, should an actual emergency occur.

The safety and security of our school remains our top priority.

This Wednesday night, August 28th is Open House Night. As explained in a previous message, there are 2 identical sessions for you to choose from. The first begins at 5:30 and the second at 6:45pm. They both begin in the cafeteria and the only available entrance is the car rider gate near the #7 sign.

If you haven't had chance to already, please complete our School Library Survey here: [Starkey Elementary Library Media Survey \(office.com\)](#) it is also available on our website.

We enjoy being able to provide breakfast and lunch to students at no charge, however this does not mean that students can take single items (such as milk) for free. In order for it to qualify as a no charge meal, they must have a full meal or they can choose a juice or fruit and a vegetable to go with their milk. Please help us by explaining this to your students.

We appreciate your ongoing support and partnership in maintaining a healthy and safe learning environment for our entire school community.

If you have any questions, please call the school at 727-547-7841

Thank you and a have a good evening.

Sincerely,

Ms. Kranzel

Principal
