Good evening from Principal Beekman at Starkey Elementary.

The Food and Nutrition Department is surveying students about the current lunch options to help create future menus. They would like to find out what meals students like and what items students would like added to their lunch menus. Please encourage your child to take the Food & Nutrition Student Lunch Survey. They can access the survey at https://survey.k12insight.com/r/CcLqiy. The survey will close on October 9th.

The Health Department is once again providing the Dental Sealant Program on our campus for students from September 26th - October 5th. Look for information and permission forms coming home with your student.

Our annual participation with International Walk to School Day is coming up. Please mark your calendars for Wednesday October 4th, to meet at Starkey Road Baptist Church at 7:45 am. Learn about safety and get some exercise while walking to school. Thank you, PTA, for hosting this event again.

As a reminder, Monday, September 25th, there is no school for students. It is a planning day for teachers and staff.

Thank you and good night.
