

Self-Paced  
**Virtual**  
Course

**SUMMER**

## **ACCELERATED MATH PREP**

### **Attention Middle School Students:**

Get ready for high school math. Take a virtual prep course this summer to prepare for *Algebra 1* or *Geometry*.

#### **Mastery Learning**

Each course begins with a pre-test and ends with a post-test. Skip the areas you've mastered. Focus on the lessons you need most.

#### **Course Support**

A PCS certified math teacher will monitor your progress and be available throughout the course to assist and support you.

#### **Plan Ahead**

Each prep course will take several weeks to complete. The courses will be available June 6 - July 28.

**Please note:** Courses are aimed at preparing you for high school math. Students will not receive a grade or course credit.
