Adopt-a-Class and Business Partnership Program

Northwest Elementary has an Adopt-A-Class and Business Partnership Program. This program allows families, businesses and organizations to become partners in education with classes, projects or any other designated area of our school. Your contribution is applied directly to student education through the purchase of books, supplies, technology and more. Donations are totally voluntary. Student grades or participation in school events and/or activities are not affected by one's inability or ability to donate.

If you are interested in adopting, please feel free to contact Michele Mollard at 727-893-2147 x2101 or mollardm@pcsb.org. Thank you for your continued support of the education of our children!
