

Growing Healthy Food in the City

Presented by

The Pinellas Technical College Food Systems Center
and the Sustainable Urban Agriculture Coalition (SIAC)

The purpose of this 6-part-series class is to train potential or new gardeners in basic, practical non-chemical food growing from the ground up. Participants will leave with the confidence to participate in urban gardening at home or in community settings.

- Class #1 | 9/24/19' Planning Your Garden** – How, where and why
- Class #2 | 10/1/19' Creating Good Soil** – Best practices and barriers
- Class #3 | 10/8/19' Working with Seed** – Methods and sources
- Class #4 | 10/15/19' Taking Care of Your Garden** – Weeding, watering, nurturing and protecting
- Class #5 | 10/22/19' Harvesting** - Prepping vegetables for the kitchen
- Class #6 | 10/29/19' Other Food Plants** - Fruit trees, herbs, perennials and edible landscaping
