

Growing Healthy Food in the City

Presented by

The Sustainable Urban Agriculture Coalition (SUAC)
and the PTC Food Systems Center

The purpose of this 6-part-series class is to train potential or new gardeners in basic, practical non-chemical food growing from the ground up. Participants will leave with the confidence to participate in urban gardening at home or in community settings.

Class #1: Planning Your Garden – How, where and why

Class #2: Creating Good Soil – Best practices and barriers

Class #3: Working with Seed – Methods and sources

Class #4: Taking Care of Your Garden – Weeding, watering, nurturing and protecting

Class #5: Harvesting - Prepping vegetables for the kitchen

Class # 6: Other Food Plants - Fruit trees, herbs, perennials and edible landscaping
