

Pinellas County Schools**Office of Strategic Partnerships

is proud to announce:

The Parent-Guardian Connection

There's no better time than now to connect with you to create a **virtual** forum, where we can all connect. The Parent/Guardian Connection will give you the opportunity to fellowship with families across Pinellas County; to be supported, share resources, engage and connect. We all know how trying these times have been. We truly are all in this together.

Join us for a new way to collaborate with leading experts and parents, just like you! All from the comfort of your home. To best establish this platform, I am asking for your input and feedback. Please take about 10 minutes to complete this survey to ensure we are capturing what's best for our families.
