

## AP 2D Design and AP Drawing, Mrs. Rowe

### 2020 Summer Homework

1. In your sketchbook, view & critique modern and contemporary artists that inspire your work from both museum visits (virtually is acceptable) and your art research about 3 artists. Use at least 2 pages (or 1 page front and back) using writing and illustration to investigate the artist and their work. More details below.
2. Decide on 3 concentration topics that could potentially become your focus (Sustained Investigation) for the school year. Use at least 2 pages (or 1 page front and back) using brainstorming, journaling, or personal investigation to consider these themes.
3. Fill the rest of the sketchbook until the end with drawings, collage, photos, artists, or anything that inspires you. No judgement here- have fun with it! **Photographers-** instead of a sketchbook, you will take 10-20 photos per week, for a total of 100 photos. They can be saved on a flash drive to submit.
4. Complete 2 finished pieces as quality projects:
  - a. A Word and Image piece (images/art that connect to written text, lyrics, stories or poems) No larger than 16" x 20"
  - b. A Surreal 8" x 10" image. Your artwork must explore surreal concepts such as: transformation, displacement, juxtaposition, and/or image duality.
  - c. **DO NOT** complete these in your sketchbook. Any 2D media is acceptable, as long as it makes sense with your concentration. Our first critique will be to share these works.

### Exploring Art & Resources

In order to understand visual art and what artists are doing, the best way is to experience it! You will need to visit **at least one** local art venue. If we are in quarantine at that time, virtual visits are also acceptable. Write about the exhibits and describe them in detail. Make a quick sketch of at least 3 of your favorite pieces (**Photographers: you have to do this too**).
