Purpose: To promote academic achievement through support at home.

Parents and students please join us for an engaging informational session designed to provide “how to use” information about resources available at home. Teachers will share various strategies that you and your child can use to implement learning routines as a family. This event will give you support to reinforce your efforts to model the value of learning, promote self-discipline and encourage hard work, which are needed to be successful in middle school. This session will help you establish realistic expectations for achievement as you encourage your child to develop and progress in school and at home.

Purpose:

Families have unique needs for their children when it comes to education. To meet these needs, resources and data have been compiled to support and encourage learning at home. The tools were designed to create routines that are easy and manageable. This partnership will promote a balanced environment and well-being needed for students to engage in and learn while in school.
