The Violence Prevention program is an evidence-based initiative with a history of demonstrated success. Funding is provided by the Juvenile Welfare Board of Pinellas County.

Gulf Coast Jewish Family & Community Services

our Mission

Inspired by Jewish values, we protect the vulnerable and help people achieve fulfilling lives by empowering individuals and strengthening families

Gulf Coast Jewish Family & Community Services is a non-sectarian, community-based, not-for-profit that has been serving the people of Florida since 1960. The agency began by providing counseling and family support services to the Jewish community in Pinellas County. In 1974, the agency was incorporated and began to expand and diversify its array of services offered to the community at-large through public funding and partnerships. Today, Gulf Coast JFCS provides services to more than 30,000 individuals annually. We serve all people regardless of background, faith, age, culture or lifestyle.
