

Good Afternoon Parents,

I want to thank all of you for your input and assistance with our new car line process. Yesterday the suggestion was made to make the entrance into the school off of 19th street a one-way road. This is a brilliant idea and thank you to the families who took the initiative. Starting today cars will enter in a one way manner. The right lane will be for cars utilizing the front car loop. The left lane (that closest to the field) will be for those utilizing the back car loop. If you use the back car loop you will now have to exit onto Tampa Road and will no longer be able to exit through the front of the school. We will be getting additional signage to assist with this transition.

For my 6th grade families we will be doing our annual vision and hearing screening on September 10th and 11th. This will take place through our gym classes with our nursing staff. We will follow all guidelines for sanitizing and social distancing of course.

Thank you again for all you do to support our students and staff.

Ms. Athanson
