

Palm Harbor Middle School is *“Leading the Way to a Pathway Of Peace”* with our new mentor program called the Panther Bridge Makers. Select students will work with facilitators to create a ground-breaking model of peace builders for other schools to emulate. With this program, students will learn practical conflict resolutions skills utilizing peaceful techniques such as establishing round table communication and collaboration where students can be heard and be the voice of the unheard. These students are up and coming leaders and future peace builders of tomorrow.
