

Weekly call out message 11.8.20

Good evening Panthers,

This is Principal Athanson with your weekly update. Thank you to everyone who has turned in your computer forms and any school issued computer you may have had at home. We have begun distribution starting with 6th graders. Please review the do's and don'ts document that is attached to this email with your students. Our goal is to have this process completed by Wednesday. If you still have a computer at home from Q4 please send it in with your student.

Parents, our Palm Harbor area is seeing an increase in COVID cases. These cases appear to be community acquired. Please be extra vigilant with your students and remind them when they are with their friends that they are wearing a mask, keeping their distance and washing their hands frequently. If they are not feeling well they should stay home. Please do not send students to school who are feeling ill. We appreciate you keeping our school community safe and healthy. In addition, please remind students that they need to come to school with a mask and how to properly wear one covering their nose and mouth.

Yearbooks are available for sale! They are \$35 and the link can be found on our Palm Harbor Middle website. Buy early!

Lastly, we are doing a food drive from now until November 18th. If you are able please send in any nonperishable items or canned foods to your students 1st period class.

Thank you and have a wonderful weekend.
