

Launch kids into career possibilities.

Kuder Galaxy® meets the needs of today's educators looking to integrate career awareness and exploration into **pre-K through grade 5 classrooms**. Galaxy's outer space theme helps students uncover their interests, explore work environments, and learn how school subjects connect to essential workplace skills and potential careers.

DELIVERS

A powerful, yet playful career awareness experience.

SERVES

Elementary students in grades pre-k through five, their parents, and schools.

PROVIDES

A series of engaging games, videos, and activities to get kids excited for the future.

“I was delighted to see a web-based program being offered to this often forgotten developmental age group. Infusing career development into the elementary curriculum was simple and seamless with Kuder Galaxy. The students loved the interactive graphics, games, and videos included in this program.”

— Dr. Julie Cerrito

Assistant Professor, School Counseling Program
The University of Scranton

THEORY-BASED EXPLORATION

Galaxy is rooted in the **Holland theory of vocational choice**. From space stations, students are launched to planets representing work environments: **Realistic (Doers)**, **Investigative (Thinkers)**, **Artistic (Creators)**, **Social (Helpers)**, **Enterprising (Persuaders)**, and **Conventional (Organizers)**.

FEATURES & BENEFITS

Inspires

students to explore work environments via six planets and learn foundational career readiness and awareness themes and objectives by grade level.

Boasts

a blend of activities, characters, videos, rewards, text, and audio for students accustomed to fast-paced, modern, interactive game-based technology.

Promotes Equity

by avoiding common assumptions and stereotypes about gender roles, race, and prestige.

Facilitates

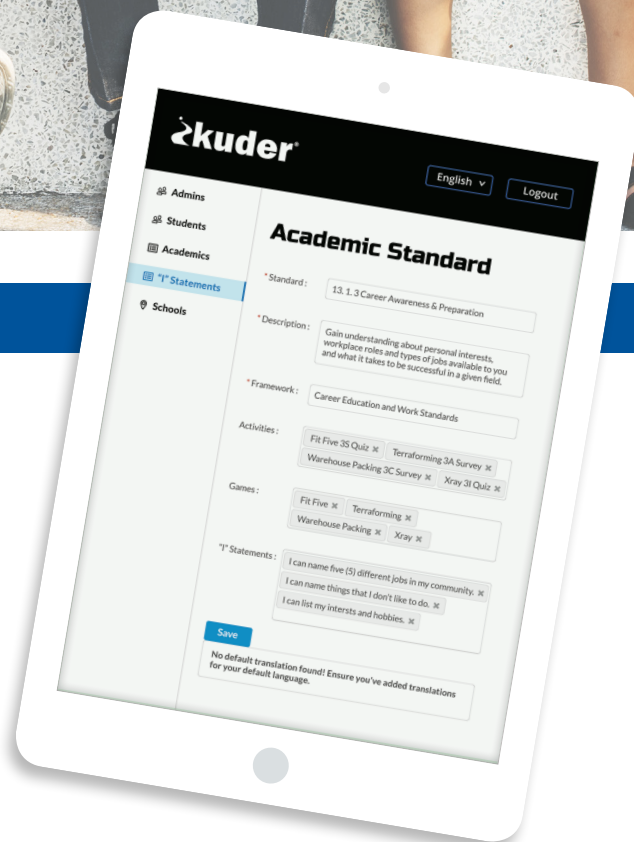

accountability with content aligned to ASCA Mindsets and Behaviors, ESSA, and other prominent standards.

Flexible tools enable you to map content to your own state or local standards.

Engages

students in meeting milestones using customizable "I" statements or learning targets, while building a college and career readiness portfolio that will transition into Kuder Navigator®.

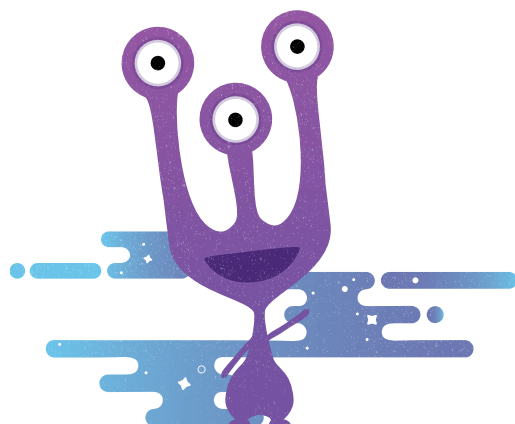

Fosters Communication

between families and students with free guidance and grade-level specific, actionable advice for parents.

Easily Accessible

from laptops, desktops, and tablets — at any time, from any place! Its flexibility makes it easy to fill an entire class session or work well in a station or center. Plus it's available in multiple languages and compliant with Section 508 and ADA.
