23/24	45	57	76	61	53	66	53	58	59
24/25 Goals	50	60	70	65	55	70	60	60	61

### COLLABORATIVE PLANNING AND PLCS

Create a school wide culture of collaborative planning, data analysis through PLC cycles and cross grade level articulation.

#### Action Steps:

- Prioritizing planning times and creating a schedule conducive to all stakeholders being present and involved.
- Using the backward design for collaborative planning and being prepared to actively participate.
- Adjusting instruction by analyzing data from PLCs.

### INSTRUCTION AND ENGAGEMENT

Individuals working together to create an environment that is working towards our common goal of student experiences and achievement.

#### Actions Steps:

- Increase oral language, academic vocabulary and content knowledge/building background through PD, learning walks, utilizing content experts and coaching cycles.
- Explicit read aloud for all content areas.
- Using engaging instructional strategies to create learning experiences for students.

### LEADERSHIP AND OWNERSHIP

All stakeholders take ownership and responsibility for the part they play within the school community by creating opportunities to share and reflect ideas in a risk-free environment.

#### Action Steps:

- Instructional staff hosting PD opportunities for their colleagues to increase content knowledge and expertise.
- Staff and students track data, set goals, monitor data and data walls visible in all classrooms.
- Learning Walks with specific focus each month.
