

## Fun in the SEA

End of Year Olive Garden Celebration for our Entrepreneurs!

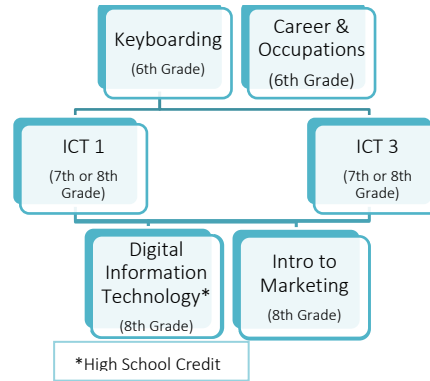

Food Truck Day!

Students in the SEA are eligible to participate in food truck day by earning certifications!

## Course Progression

**Keyboarding:** A semester long class to introduce the students to not only keyboarding, but also the world of certifications. Focus is on Word and PowerPoint skills including knowledge of the ribbon in Microsoft software.

**Career and Occupations:** A 6<sup>th</sup> grade class that introduces students to computers, software, and other technology advancements using hands-on activities. This class is part of a wheel with other electives.

**ICT 1:** A class to introduce the students to computers and software using hands-on activities to explore the applications, and beginning Word, PowerPoint, and Excel.

**ICT 3:** A course that builds from the previous course and introduces students to more complicated technology, including Web Design, Photoshop, and Illustrator.

**DIT:** An overview of current business trends and demonstrations of the soft skills of professionalism and mastery using social media, Microsoft software, with a focus on Entrepreneurship.

**Intro to Marketing:** A class that builds marketing skills including problem solving, work attitudes, and other employability strategies. It provides students with many opportunities to learn. Projects include building a food truck and creating advertisements.

## Carwise FBLA Chapter

Members of this program can also participate in FBLA, which is sponsored by Coach Hedrick and Mr. Little.

This club is an amazing opportunity for students who want to enter the business industry as an adult.

Members of this club participate in:

- Team Building
- Ropes Course
- State Competitions in Orlando
- And many more amazing activities!

## Extra "Fun" in the SEA

Quarterly Cake Parties for certifications!

Quarterly Drawings for Prizes!

Field Trips to PTEC and other High School Technology Programs!

Guest Speakers from the Business Community!
