

# SCIENCE CURIOSITY CAMP

Science Curiosity Camp is three one-week camps where students are introduced to new science concepts while also reviewing spiraled content from middle school science! Activities are hands on, lab based experiences that take their learning beyond a normal classroom setting

## Weekly Programs

**July 8-12** **week 1**

**Earth/ Space Week:**  
Learn about our amazing universe and the science that makes our world go round!

**July 15-19** **week 2**

**Life Science Week:**  
Explore the science of life including organisms of all shapes and sizes.

**July 22-26** **week 3**

**Physical Science Week:**  
Get your hands dirty by exploring the chemical and physical concepts of the world around you!
