SIP Authority and Template

Section 1001.42(18), Florida Statutes (F.S.), requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds, as marked by citations to the No Child Left Behind (NCLB) Act of 2001. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code (F.A.C.), for all non-charter schools with a current grade of D or F, or with a grade of F within the prior two years. For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>. Sections marked "N/A" by the user have been excluded from this document.

The mission of Lakewood Elementary School is to provide each student with a diverse education to reach their academic and life goals.

Provide the school's vision statement

Lakewood Elementary aspires to prepare the whole child for a future of limitless possibilities through an integrated and relevant and rigorous curriculum.

School Environment

Describe the process by which the school learns about students' cultures and builds relationships between teachers and students

During preschool all instructional staff received professional development on Trauma Care. This was provided through our community partnership with Suncoast Community Health. The staff at Lakewood will also be receiving professional development from the district Office of Community Involvement through out the year as a part of the district support for low performing elementary schools.

Describe how the school creates an environment where students feel safe and respected before, during and after school

The school utilizes a School-Wide Behavior Plan to ensure a safe environment. The teachers are all trained in Positive and Proactive classroom management. The school has clearly defined Guidelines for Success and school-wide rules along with incentive programs. Parents and families are informed of the School-Wide Behavior Plan and daily communication occurs between school and home. In addition to the School-Wide Behavior Plan, the school will be implementing a Morning Meeting process in the 2014-15 school year. The goal of the implementation is to improve the climate and culture of the school through direct instruction of social emotional strategies to successfully resolve conflict and develop a classroom community.

Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced

Lakewood has a School-Wide Behavior Plan which includes clear Guidelines for Success, School Rules, and weekly and monthly incentives.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services

In addition to a School Counselor, who implements a comprehensive guidance program to meet the social-emotional needs of the school, Lakewood has a full time social worker to work directly with students delivering individual and small group counseling along with delivering referral services to families. This social worker is in addition to the district allocated social worker and psychologist whose time is often allocated to the Response to Intervention process.

Lakewood Elementary is also provided with a Mental Health Counselor through partnership with Juvenile Welfare Board.

Early Warning Systems

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(B)(ii)(III), (b)(1)(B)(iii)(I), and (b)(1)(I).

The school uses the district student information system (Focus Portal), the supplemental district information system (EDS) and the district data mining system (Decision Ed) to generate reports to calculate attendance, discipline, academic and assessment information. The data from the early warning system is used as part of a comprehensive needs assessment. The data is also used to respond to specific questions generated by SBLT.

Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system (i.e., those exhibiting two or more early warning indicators)

Due to the large percentage of students at level 1 and 2 the school has a school wide reading intervention for all students. This district designed intervention occurs in the extended reading block. In addition to the large number of behavioral referrals, the school implements a school wide Positive Behavior Plan that includes tracking all students behavior through the use of an intensive token economy. The school also has increased the required positive to negative ratio of interaction from 3:1 to 5:1 in all classrooms. Students identified in the early warning system, experience additional Tier II and Tier III academic and behavioral supports based on the specific needs of the individual students.
