ABOUT

As a "school within a school," we are home both to the Montessori Academy magnet program as well as a community school. This unique environment provides all of our students with excellent opportunities for success.

We are proud to announce that our Montessori Academy is a Magnet Schools of America School of Distinction. This award shows our commitment to academic standards, the growth and diversity of our program, and our commitment to professional development and parent and community involvement.

The community of Gulfport has always embraced our school and we are very grateful for this community support.
