ABOUT US

Our Montessori program focuses on individualized learning. In Kindergarten, young learners are introduced to the four areas of the classroom: practical life, sensorial, language and mathematics. Through these areas, children develop the ability to focus on a task and develop foundation skills for physical, mental, social and intellectual growth. Hands-on materials are presented based on developmental level. Grace and courtesy lessons are imbedded in all classrooms resulting in a collaborative and cooperative learning environment. The Montessori child-centered environment includes: group lessons, individualized work and choices. The child develops a lifelong love of learning and is encouraged to explore, inquire, and collaborate with peers in learning communities. Montessori students are self-disciplined, independent thinkers with strong interpersonal skills ready to face the challenges of middle school and beyond.
