Learn about anxiety and how to manage it

Did you know that in the U.S. over 40 million adults have an anxiety disorder?¹ That's 19.1 percent of the adult population. And seven percent of children and teens from 3-17 experience anxiety concerns each year.¹

It's important to understand anxiety, what's "normal" and what could be a sign of an anxiety disorder.

Check out the resources we've put together to help you learn more about anxiety and coping tools that can help.
