

Your Benefits and Leave

Insurance Premium / Unpaid / Board Contribution

- When you take a leave of absence, you may continue your PCS insurance coverage. While you are on a leave and getting a paycheck, deductions will continue to be taken as scheduled.
- When you are out of paid time, Risk Management will bill you for any missed deductions. The amount of your monthly payment depends on the type of leave you have taken and your benefit coverage.
- While eligible for Family Medical Leave (FMLA), your Board Contribution toward your insurance premium will continue at the active employee rate.
- When your Family Medical Leave expires or **if you are on a regular leave of absence**, you will be responsible for **both** the employee and Board contribution (unless you are on a "paid leave). **This total premium is considerably higher than the amount of your payroll deductions. Please see [Leave Premium in 2023](#).**
- Failure to pay insurance premiums by coupon due date, will result in cancellation of coverage retroactive to premiums paid. You must continue to pay your billing statements until the date you receive your first paycheck after you return to work and have a regularly scheduled deduction
