The core instructional strategies included in our action plans are:

- teachers will create rigorous and engaging lessons using complex texts,
- teachers will collaborate and work together to track data and monitor effectiveness of instruction,
- use of Carnegie Learning program to address new Florida Core Standards in math,
- build WICOR binders for each teacher,
- content materials are differentiated by student interests, cultural background, prior knowledge of content and skill level.

The professional development efforts will focus on teachers engaging in facilitated PLCs with specific, identified tasks and learning outcomes that are aligned to the standards and include formative assessments and feedback.

The parent involvement efforts are basic to Fundamental Policy. Parents must commit to parent involvement activities to include one meeting per month (Booster, SAC, PTSA), and participation in all conferences.
