

Executive Summary of Seminole Elementary's School Improvement Plan 2015 - 2016

Seminole Elementary School has 599 students in grades Prek to 5, two administrators, 49 teachers, and 31 staff members. The mission of **Seminole Elementary** is: "Committed to the success of students, families, and staff". To accomplish this mission, Seminole Elementary has 3 big goals:

- 1) The reading, writing, math, and science proficiency of all student subgroups will meet or exceed the state average.
- 2) The achievement and discipline gap between Black and non-black students will decrease to less than the state average.
- 3) Student attendance will meet or exceed 95%.

The core strategies included in our action plans are: increasing the rigor of instruction in core content areas by providing regular opportunities for students to reflect deeply on their thinking with peers and adults, providing structured, regular opportunities for students to deepen their knowledge by focusing on a topic of their own choice, providing regular extended time for independent reading and writing supported by teacher conferring and small group work, and providing learning goals and scales for students to empower students to track and own their learning.
