### SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or with a grade of F within the prior two years. For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education’s school improvement planning web application located at [https://www.floridaCIMS.org](https://www.floridaCIMS.org).

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify resources available to support the goals and barriers that could hinder achieving those goals (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies
Differentiated Accountability

Florida's Differentiated Accountability (DA) system is a statewide network of strategic support, differentiated by need according to performance data, and provided to schools and districts in order to improve leadership capacity, teacher efficacy and student outcomes. DA field teams collaborate with district and school leadership to design, implement and refine improvement plans, as well as provide instructional coaching, as needed.

DA Regions

Florida's DA network is divided into five geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

Traditional public schools are classified at the start of each school year, based upon the most recently released school grades (A-F), into one of the following categories:

- Not in DA – currently A or B with no F in prior three years; charter schools; ungraded schools
- Monitoring Only – currently A, B or C with at least one F in the prior three years
- Focus – currently D
  - Planning – two consecutive grades of D (i.e., DD), or a grade of F immediately followed by a grade of D in the most recent grades release (i.e., FD)
  - Implementing – two consecutive grades of D in the most recent grades release preceded by a grade below C (i.e., FDD or DDD)
- Priority – currently F
  - Planning – declined to a grade of F in the most recent grades release and have not received a planning year or implemented a turnaround option during the previous school year
  - Implementing – two consecutive grades of F (i.e., FF), or three consecutive grades below C with an F in the most recent grades release (i.e., FDF or DDF)

DA Turnaround and Monitoring Statuses

Additionally, schools in DA are subject to one or more of the following Turnaround and Monitoring Statuses:

- Former F – currently A-C with at least one F in the prior three years; SIP is monitored by FDOE
- Planning – Focus Planning and Priority Planning; district is planning for possible turnaround
- Implementing – Focus Implementing and Priority Implementing; district is implementing the Turnaround Option Plan (TOP)

Part I: Current School Status

Supportive Environment

**School Mission and Vision**

**Provide the school's mission statement**

Our mission is to provide a safe, supportive learning environment and to create lifelong learners who achieve at least a year or more of learning growth.

**Provide the school's vision statement**

Our vision is that 100% of our students are achieving at grade level or above in order to be college and career ready.

**School Environment**

**Describe the process by which the school learns about students’ cultures and builds relationships between teachers and students**

In order to be culturally responsive to our diverse student population (including our African American and Hispanic population) all homeroom classes begin their day by greeting students when they enter the classroom and with a Morning Meeting in order to learn more about the individual students and their backgrounds. In doing so we are building trust and stronger relationships with our students. We have a multi-cultural club that regularly meets to support our diverse student population and participates in field trips including the Pinellas County African American History Museum and SPIFFS.

**Describe how the school creates an environment where students feel safe and respected before, during and after school**

Belleair Elementary Administrators go on the morning news every day and reiterate the school-wide expectations. Administrators and teachers are highly visible around the campus. We also have signage that reminds students of the expectations in different areas of the campus. Students are escorted to their dismissal locations which allows for supervision until they leave campus. Students are greeted by adults as well as their classroom teacher when they arrive at school.

**Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced**

Belleair uses Positive Behavior Systems to promote a positive culture. Our Behavior Team has received training on best practices and trained classroom teachers in those practices. Our teachers implement protocols that incorporate consistent school wide expectations and rigorous, engaging lessons. We have also trained staff members on the school's Behaviors and Level of Consequences chart which outlines possible behaviors and a menu of progressive actions that could be taken. The Student Services team attend monthly PBS trainings led by practitioners from the University of South Florida. The PBS Team (including the Behavior Coach, Student Service Team, Administration and grade level teachers) also meet monthly to monitor behavior data and current behavior supports. They have created a PBS handbook which each teacher receives during preschool with all school wide PBS processes, procedures and incentives. We have Safety Patrols that provide students with leadership roles in the school and assists with arrival and dismissal procedures.
Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

Through the use of Morning Meetings and imbedded monthly character trait lessons our students have the opportunity to discuss their feelings and how to utilize these character traits in their actions. Monthly Tiger Assemblies are held to recognize students who are making positive choices as it relates to the Character Trait of the Month. Tiger Bucks, Positive notes home, PAW Mart, PURR Awards celebrate students who are making positive behavioral choices in the cafeteria. Students are able to use Tiger Bucks to purchase items at PAW Mart and attend monthly PBS celebrations. Teachers use a Behavior Gradebook to track student behavioral progress. Teachers submit their behavior gradebooks to the Behavior Coach and it is analyzed by the Student Services Team. Students who earn 5 or more N's or U's in a month will be considered for small group counseling with the Social Worker and/or the Guidance Counselor.

Early Warning Systems

Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system

A process has been implemented and is continuously monitored by our MTSS Academic and Behavior coaches to identify, share and monitor these EWS students with their teachers. In addition these coaches support the teachers in selecting and carrying out the specific differentiated core and supplemental instruction used with these students.
Based upon Early Warning Indicators, Promise Time is differentiated to support identified areas of weaknesses for students earning a level 1 on standardized testing. These students will receive additional instruction in Reading and Math through small group and computer based instruction 3 times a week for 90 minutes.

Based upon Early Warning Indicators Positive Behavior supports are differentiated to individual student needs to support learning and reduce disciplinary issues. For example the Check and Connect (Individualized Support Plan) addresses either academic and/or behavior deficits by providing students with an adult that encourages them to attend school daily and is an advocate for that child. Another example would be when a PBIP is written for a student with a discipline referral instead of repeatedly taking the student out of the classroom and missing instruction every attempt is made to be proactive rather than reactive with further referrals.

Based upon Early Warning Indicators a decision was made to implement differentiated Morning Meetings to assist individual students integrating into a positive classroom culture that supports learning.

**Family and Community Involvement**

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(B)(iii)(I)(aa).

Describe how the school works at building positive relationships with families to increase involvement, including efforts to communicate the school's mission and vision, and keep parents informed of their child's progress

Title I schools use the Parent Involvement Plan (PIP) to meet the requirements of 20 U.S.C. § 6314(b)(1)(F).

**Will the school use its PIP to satisfy this question?**

Yes

**PIP Link**

The school completes a Parental Involvement Plan (PIP), which is accessible through the Continuous Improvement Management System (CIMS) at [https://www.floridacims.org/documents/52054](https://www.floridacims.org/documents/52054).

**Description**

A PIP has been uploaded for this school or district - see the link above.

Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement

Administration, through the support of the Volunteer coordinator, actively seeks and sustains the support of Big Brother Big Sisters, local churches, American Red Cross and our business partner, Nielsen. Community representatives from the Clearwater Rotary are members of our SAC. Administration meets regularly with Nielsen, our business partner to discuss ongoing projects. Teachers send student made thank you's throughout the years to our community members including 3rd grade thank yous to the Rotary for the dictionaries given to all 3rd graders. The volunteer coordinator is funded through Title 1 and assists in working with our community partners and recognizing them through out the year including an end of the year awards recognition.

**Effective Leadership**

Duties

Describe the roles and responsibilities of the members, including how they serve as instructional leaders and practice shared decision making

The Leadership Team meets weekly to discuss school wide data, next steps, current calendar activities, planning for professional development, staff and school wide concerns and to plan for follow up on all required processes and instruction for students. Susan Manche, the assistant principal, acts as the Learning Specialist for the school. She attends monthly district Learning Specialist training covering all curriculum and returns to share this information through monthly Professional Development school meetings. In addition she works with the Principal to hold weekly walkthroughs in classrooms and utilizes this time to share just in time PD or to line up support for classroom teachers with the curriculum coaches. She schedules and organizes all district and state assessments and the required accommodations. Renee Kelly, MTSS academic coach disaggregates data and assists in supporting Tier 2 and Tier 3 students and leads team in planning for weekly SBLT agenda.

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact

At the beginning of the school year the Leadership Team meets to analyze all school wide data from the previous school year. During preschool 2015-2016 curriculum meeting the Leadership Team will share the school's this data and followed the established process for looking over the data and identifying strengths, weakness and goals for the upcoming school year. The RtI academic coach then gave each team leader RR, District Common Assessment, SAT 10 and FCAT data from the previous spring and blank Scattergrams to begin organizing student data to start grouping students for instruction and differentiation. The teachers along with the RtI academic coach and Leadership Team used the data to organize students into small groups and to plan instruction to match the needs of the students. During the first week the Leadership Team worked with all Resource Teachers (ESE, ESOL, LLI, and Title 1 hourlies) to create a master Resource schedule to make sure all instructional time was purposely planned for and matched the needs of the students. The teachers then worked with the RtI coach and classroom teachers to determine which resources/interventions would best...
support the needs of the students. As instruction begins teachers are given a schedule for turning in routine Progress Monitoring on Reading, Math and Science. The Leadership Team, classroom teachers and the SBLT regularly analyze the PM data to determine if groupings, resource support or interventions need to be changed to better meet the needs of the students. The Leadership Team meets weekly as a team, meets with SBLT each week and meets weekly with a selected grade level PLC to discuss progress and any needs for students and required resources, etc. The RtI academic coach is responsible for coordinating this process and in organizing and sharing the data with SBLT and the Leadership team at the weekly meetings.

**Duties**

*Describe how the LLT promotes literacy within the school*

The Literacy Leadership Team supports the literacy activities within the school. They are responsible for coordinating a variety of Literacy based parent engagement activities including, the Book Fair, Battle of the Books, Holiday Break Reading Challenges, Reading Under the Stars, and support of the School Improvement Initiatives.

**Public and Collaborative Teaching**

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(D).

*Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction*

Our schedule has been created to allow daily common planning time between grade level teachers. Each grade level team is required to schedule two weekly collaborative planning times and a weekly grade level PLC. We have also scheduled time for weekly collaboration with classroom teachers and content level just in time coaches. We encourage and support teachers to observe their peers modeling Best Practices within their classrooms. During monthly Curriculum Meetings we lead the staff with Team building activities. Our Hospitality Committee holds monthly after school get togethers and twice a year celebrations to promote positive relationships.

*Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school*

Interview questions are developed that reflect a blend of the proficiencies on the FEAP, and the Haberman techniques. Prospective candidates are selected based upon their having the necessary qualifications at the time of the interview (i.e. ESOL Endorsement, ESE certification, Elementary Education K-6, etc.) Each new teacher is given the PD that supports our school improvement plan that the current staff received and currently utilize such as Jan Richardson small group, Classroom Discussions, St Math ,etc. RtI Coaches, Just in Time Coaches and the Curriculum Specialist support...
new teachers as need arises. Experienced teachers are provided opportunities for growth through Leadership experiences such as being a Team Lead, sharing PD with the staff, mentoring, etc.

**Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities**

We provide mentors to all first year teachers. We have a Lead Mentor who is responsible for ensuring that mentors meet with the new/developing teachers and facilitates the monthly meetings centered around school and district processes. This will include information on the SIP and how to implement and the creation of PMP's for students. All new/developing teachers were paired with teachers who have demonstrated effective teaching at their grade level.

**Ambitious Instruction and Learning**

**Instructional Programs and Strategies**

**Instructional Programs**

*Describe how the school ensures its core instructional programs and materials are aligned to Florida’s standards*

All classroom teachers collaboratively plan weekly and utilize unpacked standards and the district provided content and curriculum guides for each subject. The expectation is that all instruction is focused and aligned to the Florida Standards. Teachers are required to turn in weekly lessons plan that are aligned to the standards. Teachers are required to post their updated Flow of the Day which contains the standards and/or Learning Goal aligned with the standards. Administration does Walkthroughs providing feedback addressing those items needing to be improved upon, and those items that are working well. The administrative walk-throughs ensure that instruction is aligned to the standards, by utilizing the District provided Month-at-a-Glance for all grade levels, teacher lesson plans, and that the curriculum being taught is in accordance to the curriculum guidelines and use best practices. We also look for supporting evidence of instruction (i.e. anchor charts, student work samples, rubrics, scales, etc...)

**Instructional Strategies**

*Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments*

In close analysis of our data, (including District Math & Science Common Assessments, ELA Modules, Running Records, FCAT 2.0 Science, SAT 10, CELLA, Engagement data, and FSA 3rd grade Lowest Quintile data), we determined more gains needed to be made with our Black, Hispanic, SWD, Males, and ELL students. We plan to continue to focus on aligning the rigor of our teaching to the rigor of the standards, increasing the level of student engagement during instruction and focusing on more explicit instruction of content and academic vocabulary. Our staff has been trained in the use of SIOP Strategies and these strategies will be utilized to support our ELL population. Some of the ways we use data to differentiate instruction is by using the item analysis of district common assessments to determine which standards need to be retaught to individuals, small groups
of students, or the whole class. We also use data to group students in Tier 2 or Tier 3 groups and determine who will receive additional instruction from the classroom teacher, an ESOL Teacher, or a Title I Hourly Teacher.

Additionally, data is also used to group students into guided reading groups. Running Record data is used to determine the grade level text that will be used in these small groups.

Our teachers use routine formative assessments with the students during class instruction to ensure misunderstandings are addressed immediately and those students with a higher level of understanding are provided enrichment. MFAS are utilized during Math instruction to assist in determining focus for Math remediation and/or enrichment.

Science District CA data on 3rd-4th grade standards will be used to determine current Science proficiency levels of 5th grade students. This data will be used to determine focus of instruction for extended learning opportunities and for remedial small group instruction within the classrooms. In 3rd-5th grade classes, Literacy teachers utilize Science CA and classroom assessment data to determine choices for non-fiction books in small groups and independent Literacy work during ELA. This data also drives instruction with Science modules in determining what needs to be retaught or at a deeper level and will determine assignments on Think Central online lessons.

Students work with their individual data through the use of portfolios. The students routinely update their core subject data and set goals and action plans based on this data. We will be implementing the use of scales aligned with academic standards this year and the students will be instructed on the use of these scales in order to understand what they need to know to be proficient on these standards and what is lacking if they are not proficient.

**************************

REDO*****************************************************************************

Our African American students showed gains of 2% in Reading and 16% in Math proficiency. Our Hispanic students showed a 4% gain in Reading and a 10% gain in Math proficiency. Our ELL students showed a 9% gain in Reading and a 14% gain in Math proficiency. In further analyzing this data, along with district and classroom data, we determined more gains needed to be made with our Black, Hispanic, and ELL students through continuing to focus on teaching to the standards, increasing the level of student engagement during instruction and focusing on more explicit instruction of content and academic vocabulary.

Student Transition and Readiness

PreK-12 Transition

The school's response to this question may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(G).

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another
We host a variety of events to provide the means for students to transition from VPK to Kdg and 5th to 6th: We provide an orientation visit for local preschools to visit our Kindergarten program and receive Kindergarten packets to familiarize them with Kindergarten expectations. Our 5th grade teachers articulate with our Middle schools to best understand how to prepare our students for Middle School and visits by area Middle schools are arranged.
