School Board Approval

This plan is pending approval by the Pinellas County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or with a grade of F within the prior two years. For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education’s school improvement planning web application located at https://www.floridaCIMS.org.

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify resources available to support the goals and barriers that could hinder achieving those goals (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies
Differentiated Accountability

Florida's Differentiated Accountability (DA) system is a statewide network of strategic support, differentiated by need according to performance data, and provided to schools and districts in order to improve leadership capacity, teacher efficacy and student outcomes. DA field teams collaborate with district and school leadership to design, implement and refine improvement plans, as well as provide instructional coaching, as needed.

DA Regions

Florida's DA network is divided into five geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

Traditional public schools are classified at the start of each school year, based upon the most recently released school grades (A-F), into one of the following categories:

- Not in DA – currently A or B with no F in prior three years; charter schools; ungraded schools
- Monitoring Only – currently A, B or C with at least one F in the prior three years
- Focus – currently D
  - Planning – two consecutive grades of D (i.e., DD), or a grade of F immediately followed by a grade of D in the most recent grades release (i.e., FD)
  - Implementing – two consecutive grades of D in the most recent grades release preceded by a grade below C (i.e., FDD or DDD)
- Priority – currently F
  - Planning – declined to a grade of F in the most recent grades release and have not received a planning year or implemented a turnaround option during the previous school year
  - Implementing – two consecutive grades of F (i.e., FF), or three consecutive grades below C with an F in the most recent grades release (i.e., FDF or DDF)

DA Turnaround and Monitoring Statuses

Additionally, schools in DA are subject to one or more of the following Turnaround and Monitoring Statuses:

- Former F – currently A-C with at least one F in the prior three years; SIP is monitored by FDOE
- Planning – Focus Planning and Priority Planning; district is planning for possible turnaround
- Implementing – Focus Implementing and Priority Implementing; district is implementing the Turnaround Option Plan (TOP)

Supportive Environment

School Mission and Vision

Provide the school's mission statement

Engage, Educate and nurture academic success for all students in all academic areas, and prepare them for a successful future.

Provide the school's vision statement

100 % of Lealman Avenue Elementary students will meet academic expectations in all areas.

School Environment

Describe the process by which the school learns about students' cultures and builds relationships between teachers and students

Embedded PD at monthly staff meetings and Team Leader meetings to build and maintain a school wide atmosphere of Cultural Proficiency and Responsiveness

Staff Review and Discussion of School Wide (by Grade Level) Data at monthly staff meeting. Disaggregation of data will lead to frequent class meetings and team building activities documented in lesson plans.

Describe how the school creates an environment where students feel safe and respected before, during and after school

Using the Positive Behavior Support System, the school has identified guidelines for success. These guidelines are posted in all common areas of the school. There are guidelines for success for the cafeteria, bathroom behavior and hallway behavior. Teachers use the guidelines for success to create guidelines for their classrooms. There is a common language throughout the school that identifies the expectations. First day of School: Each classroom teacher created a chart of desired behaviors-general, café, bathroom, hallway.

Ex. What does a quality hallway line look like and sound like?

From this discussion, students are led to the unveiling of the School-Wide guidelines and more specific creation of classroom expectations and rules.

The school guidelines are reviewed routinely on morning announcements. Specific classroom review dates are built into the master schedule to maintain continuity with our mobile population.

Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced

There are guidelines for success for the cafeteria, bathroom behavior and hallway behavior. Teachers use the guidelines for success to create guidelines for their classrooms. There is a common language throughout the school that identifies the expectations.

Discipline procedures are outlined with staff and subsequently students. Each classroom aligns their behavior plan with the school wide plan. School wide and Classroom plans are clearly linked to the evaluation process with clearly defined processes and procedures.
Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services

The school counselor and the school social worker work with teachers to identify students who need extra emotional support. They both meet routinely with groups that focus on a variety of issues: self esteem, divorce, anger management and social skills. Grade level staff has selected a student to mentor from the students identified as at risk due to attendance/academic or behavioral performance. Each staff member will check in with their student two or three times a week. The conversations will focus around their comfort level with what is being taught in the classroom, their routines for studying and homework and just their all around well being.

Early Warning Systems
The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(B)(ii)(III), (b)(1)(B)(iii)(I), and (b)(1)(I).

Describe the school's early warning system and provide a list of the early warning indicators used in the system

The Child Study Team meets twice a month to discuss issues such as attendance and suspensions. The school social worker follows up with parents regarding attendance. The SBLT meets twice a month to review academic and behavioral concerns. Data that contains suspension information is shared and ideas for behavior plans are discussed. Team leaders report to the principal weekly through PLC notes any academic concerns about students. Grade level teams discuss ideas for re-teaching and implement their plans.

Provide the following data related to the school's early warning system

The number of students by grade level that exhibit each early warning indicator:

Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system

Monthly review of discipline and attendance data at staff meetings. Weekly PLC review of discipline by grade level teams. Protocols are used to find solutions. Administration will review PLC notes weekly to monitor student concerns and make referrals to bi-weekly SBLT where discussion regarding specific interventions will occur. The strategies used are to increase the ratio of positive to negative interactions between students and teachers, decrease the number of students earning multiple referrals. Once students are identified, profiles will be maintained to monitor academic and attendance indicators. Students will take part in the check and connect program facilitated by school counselor and social worker.
Family and Community Involvement

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(B)(iii)(I)(aa).

Title I schools use the Parent Involvement Plan (PIP) to meet the requirements of 20 U.S.C. § 6314(b)(1)(F).

Will the school use its PIP to satisfy this question?
No

PIP Link
The school completes a Parental Involvement Plan (PIP), which is available at the school site.

Description

Lealman Ave. Elementary believes in involving parents in all aspects of its Title I programs. The SAC has the responsibility for developing, implementing, and evaluating the various school level plans, including the SIP and PIP. More than 50 percent of the members of SAC are parent (non-employee) representatives. In addition, all parents were given the opportunity to review the plan and offer their input prior to approval. For the PIP, all parents were given surveys at the end of the year seeking their input on activities, training, and materials they needed to help their child. Results of parent surveys are reviewed by the SAC to determine needed changes. During the SAC meeting when the PIP and/or SIP are developed, the committee will decide, with the input from parents how the parental involvement funds will be used. Parent input will be documented by sign-in sheets and in the minutes from meetings. We believe that parent involvement is the key to student success at Lealman Avenue Elem. Our Annual Title I Meeting is held in conjunction with our Open House in an effort to reach as many parents as possible through this first meeting. In addition to our evening meeting, we offer a written document to all who are unable to attend. This overview comes with a tear-off sheet to document receipt and to give parents the opportunity to ask questions. Parents are notified that they may also call the Lealman Ave. Elem. Title I Office for more information or questions. We offer flexible morning and evenings and meeting times throughout the year to reach as many families as possible with a variety of topics. Some morning meetings are scheduled in an effort to accommodate families who are unable to attend evening meetings. Our I Moms and All Pro Dads are morning events. We also vary the meeting times of our SAC in an effort to reach more families. Family events will be presented in Spanish and English when possible or translators will be provided to enable non-English speakers to participate in all events. If the event does not include families, child care will be provided to enable parents and caregivers to attend.

Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement

Lealman Elementary employs a Family and Community Liaison who establishes relationships with local businesses to support our students. Throughout the year, she makes visits and phone calls to solicit financial as well human resource sponsorships. She works with mentors and assists in securing volunteers for the classrooms.

Effective Leadership

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(H).

School Leadership Team

Membership:
Describe the roles and responsibilities of the members, including how they serve as instructional leaders and practice shared decision making

-Facilitator (Taryn McCormick) – generates agenda and leads team discussions
-Data Manager(s)/Data Coach(es)(Bonita Paquette/Annette Mavres/Principal/Assistant Principal/Joyce Grecco-Foster/Mary DeNicola/ Math Coach/ELA Coach) – assist team in accessing and interpreting (aggregating/disaggregating) the data
--Recorder/Note Taker( Stephanie Davidson/Guidance Counselor) – documents meeting content and disseminates to team members in a timely manner as well as storing a hard copy in a binder for all teachers to access
-Time Keeper(Jennifer Garafola) – helps team begin on time and ensures adherence to agreed upon agenda

Meeting time: Every other Tuesday of each month. Times are varied to coincide with teams block schedules so that teachers may attend if they wish.

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact

The SBLT will manage and coordinate efforts between all school teams, review/revise the SIP, meet bi-weekly for RtI Academic/Behavior Concerns, monitor all data-academic-attendance-referral, review weekly PLC notes and coordinate efforts to meet the needs of students. The Psychologist and Diagnostician facilitate the development of intervention plans and interpret data. The Social Worker and Guidance Counselor provide services to support the child’s academic, emotional, behavioral and social success. Math and Reading Coaches Lead and evaluate the school Core Content Standards/programs, monitors the fidelity of reading/math intervention programs and participates in the design and delivery of professional development while providing support for assessment and progress monitoring.

The Lealman Elementary School Leadership and MTSSRtI Leadership Team will assist in the continuous improvement of all academic and behavioral results with meetings focused on "How do we develop and maintain a problem-solving system to bring out the best in our school, teachers, and in our students?" Data is disaggregated and reviewed for patterns-strengths and weaknesses. The results highlight Core program strengths and weaknesses. From this, SIP decisions are made.

Title I, Part A

Title I, Part A funds are utilized, in conjunction with various other federal, state, and local funds, to support high quality instruction, parental engagement, and professional development for highest student achievement. Title I services are coordinated and integrated with other resources through
collaboration of staff in various offices and departments, including: School and Community Support, Teaching and Learning, Assessment, Accountability, and Research, Professional Development, Strategic Communications, Strategic Partnerships, Human Resources, and Transportation. Title I staff monitor expenditures of Title I, Part A funds to ensure that they supplement rather than supplant other funds available to schools.

Title I, Part D

The district receives Title I, Part D funds which provide transition services for students entering or returning to their zoned schools from alternative education programs or juvenile detention facilities. Support for initial intake and ongoing transition support are provided by Title I, Part D funds and a portion of Title I, Part A funds reserved for services to neglected and delinquent youth. Credit recovery through mobile labs and the NovaNet program is a critical support provided for students. Title I, Part D funds are also targeted to support continuous education services for students through tutoring, instructional materials and resources, and technology.

Title II

Title II Part A funds professional development to increase the academic achievement of students by improving teacher and principal quality and increasing the number of infield and effective teachers in the classroom and highly effective principals and assistant principals in schools. Title II supports professional development for content areas, common core, leadership development, and early career teachers. Funds are also used for recruitment and retention activities and bonuses for high need schools.

Title III

Title III funds are utilized to provide a variety of educational resources and support services to improve the education of immigrant and English Language Learners. Bilingual translators provide assistance with parent workshops and dissemination of information in various languages for Title I schools. The district’s ESOL web page makes relevant information and resources available for families, including a schedule of parent workshops and other activities. Support is also provided for teachers who need to obtain their ESOL endorsement, giving them options for successfully completing this requirement.

Title X - Homeless

The district receives funds to provide resources for students identified as homeless under the McKinney-Vento Act, to eliminate barriers (such as lack of transportation or required immunizations) to a free and appropriate education. A portion of Title I, Part A funds is also reserved to provide services to homeless students (social workers, a resource teacher, tutoring, and technology).

Supplemental Academic Instruction (SAI)

SAI funds are coordinated with Title I, Part A funds to provide extended learning enrichment opportunities for students during the school year and during the summer. SAI funds are also used, in conjunction with Title I, Part A funds, to provide ongoing instructional support for teachers through professional development by highly skilled content area specialists and staff developers. Lealman Elementary School will participate in the Promise Time extended learning program for the 2014-15 school year.

Nutrition Programs

Title I coordinates with district Food Services staff members to monitor poverty rates at schools and determine Title I eligibility. Title I and Food Services also collaborate to implement the Community Eligibility Option in schools with poverty rates of 40% or greater, so that all students receive free breakfast and lunch during the school year and during extended year/summer programs. Lealman Elementary is a part of the Community Eligibility Option for the 2014-15 school year.

Head Start

Title I, Part A funds are used to provide Pre-Kindergarten to Kindergarten transition services. Title I schools coordinate with staff from public and private preschool programs, including Head Start, to prepare students for a successful start to school. **Duties**

*Provide a description of the SAC's involvement with the following activities, as required by section 1001.452(2), Florida Statutes*

**Evaluation of last year's school improvement plan**

At the April 2015 meeting, SAC members reviewed the goals and action plans for the 2014-15 SIP. SAC members were paired with staff members from each grade level. Staff members shared activities and instruction that took place for each of the action plans.

**Development of this school improvement plan**

Based on input from the evaluation of the 2014-15 SIP from the April SAC meeting, ideas are incorporated into the 2015-16 SIP. At the September SAC meeting, the SIP goals and action plans will be reviewed. SAC members will be given a copy of the goals and action plans to take home. Any additional input will be discussed at the October meeting and added to the plan.

**Preparation of the school's annual budget and plan**

At the September meeting, the School Improvement budget is shared with SAC members. Suggestions for use of funds is discussed. Any requests from staff members, such as conference registration fees are brought before SAC and voted on. Ideas for family workshops using School Improvement funds are brought forward by administration and staff members and voted on as well.

**Describe the use of school improvement funds allocated last year, including the amount budgeted for each project**

Mad Science can make dry science concepts come to life in a fun way with inquiry-based workshops that correlate directly to Florida's Next Generation Sunshine state grade level standards. Each workshop comes with:

- Take Homes for every student and take home cards which serve to integrate the whole family with "what I learned" concepts and "something to do at home" that re-enforces.
- Teacher Resource Package to help educators maximize the learning experience before and after each Mad Science workshop.

Professional lesson plans present science concepts through hands-on activities and real life
examples, with language that children understand. We present science in bold innovative ways that draw students into the exciting world of possibility and discovery. Our proven method engages students in active experiential learning that heightens understanding, retention and application. By adhering to the scientific method in our workshops we develop critical and investigative thinking skills in students. $900.00

**Verify that the school is in compliance with section 1001.452, Florida Statutes, regarding the establishment requirements and duties of the SAC**

Yes

*If the school is not in compliance, describe the measures being implemented to meet SAC requirements*

**Public and Collaborative Teaching**

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(D).

*Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction*

The master schedule is created to allow team members collaborative planning time five days a week. Teams meet three times a week to plan together, discuss student assessment results and to share strategies that have been successful in their classrooms.

*Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school*

Principals are invited to attend job fairs sponsored by the district. Candidates have been pre-screened and have met all requirements for highly qualified and certified. Teachers new to the staff are assigned a mentor from their same grade level. Mentors meet with new teachers once a week to assist with planning and all school related items.
Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities

New teachers are assigned to a mentor in their grade level. The mentor has attended district training and received professional development in the area of coaching and mentoring. The reason for pairing like grade level teachers together is so that their planning times coordinate. Also, a mentor from within the same grade level has a better understanding of the day to day happenings in that grade level classroom.

Ambitious Instruction and Learning

Instructional Programs and Strategies

Instructional Programs

*Describe how the school ensures its core instructional programs and materials are aligned to Florida’s standards*

The school uses the provided core instructional materials that have been adopted by the district and meet Florida Standards. Teams, in coordination with the Literacy and Math coaches, study the Florida Standards before creating lessons to meet the expected outcome.

Weekly PLC review of data according to standards coupled with discussion on how to meet the needs of our struggling students as well as challenge our students for enrichment. Data used will be formative and summative. Classroom assessments will provide the necessary data to inform teachers’ instruction.

Once the needs of the students are established, lesson plans are created and recorded in the electronic plan book. Plans are reviewed weekly by administration.

An additional 30 minutes of focused reading instruction has been added to the master calendar. All certified teachers are responsible for providing interventions using prescribed, research based programs.

Problem Identification Summary
This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the points of strength and areas of need that have been identified in the data.

Incoming first grade students are stronger in reading than they have been in previous years. Math data is still low but not as low as previous years. Incoming second grade students will need additional support in ELA and Math. Many students were promoted at the end of First grade who were not meeting grade level expectations.

Incoming third through fifth grade students are showing a deficit in Math and will need additional support.

Problem Analysis Summary
This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the underlying “why” or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.
School Improvement Goals

The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.

Action Plan for Improvement

For each strategy selected in the plan to reduce a targeted barrier to a strategic goal, this section lists the rationale for that strategy (i.e., why the school believes it will reduce the barrier) and the action steps that have been identified as necessary to implementing the strategy, including details such as the point person, timing and duration, and evidence of completion. At the end of each set of action steps is the plan for monitoring the implementation and effectiveness of the respective strategy.
