## Continuous Improvement

A school does not achieve its goals by good fortune or hard work alone, but by prioritizing efforts. Improvements are made by focusing intensely on the priorities, while maintaining high service levels for ongoing work. The School Improvement Plan (SIP) is based on the Plan, Do, Study, Act (PDSA) process, which manages and supports effective and efficient planning, implementation, monitoring, revising, and oversight.

A fully developed SIP places the management of priorities and strategies in the context of planning, accountability and support at the school level. School SIP teams ensure these priorities are supported through:

- clearly defined priorities and strategies that are aligned to district strategic goals,
- oversight throughout the planning, implementation and monitoring process, and
- reflection and adjustment to meet school, department and student needs.

Plans succeed because they are well developed, implemented and monitored, and align with the overall goals and objectives of the school and district. The benefits of a good SIP process include achievement of the desired results that positively impact staff growth and student achievement.

Choose three priorities for improvement (“Big Rocks”) that you will focus on for the school year. Following the priority, complete the theory of action statement using your current data and results from your problem solving process.

**EXAMPLE THEORY OF ACTION:** If we effectively implement high-leverage strategies which support standards-based instruction, then the percent of all students achieving gains will increase from 55 Click or tap here to enter text. to 70%.

### 1. Priority 1: Conditions for learning

**Priority 1 Theory of Action:** If we effectively implement high-leverage strategies which support Standards-based instruction, then the percent of all students who enroll will increase from 822 to 863

### 2. Priority 2: Standards-based instruction

**Priority 2 Theory of Action:** If we effectively implement high-leverage strategies which support Standards-based instruction, then the percent of all students who earn an LCP will increase from 63% to 68%

### 3. Priority 3: Transition to Career Training

**Priority 3 Theory of Action:** If we effectively implement high-leverage strategies which support Transition to Career Training, then the percent of all students who transition to PTC will increase

## Academic Goals

### *Instructions*

Refer to your plan for Monitoring and Achieving Improvement Priorities as a school-wide system (above). In the sections below, identify specific academic goals and strategies that you will implement in support of achieving those priorities.

These goals, strategies and professional development should align directly to the Monitoring and Achieving Improvement Priorities table in the Continuous Improvement section above. The table above describes how you are monitoring the implementation of these strategies, as well as the progress of these goals.
