

EXECUTIVE INTERNSHIP PROGRAM

The Executive Internship Program offers academically talented students professional experiences in a community setting. Geared to developing management skills and refining career preparation goals, this program provides the opportunity for carefully selected secondary students to intern with community leaders. Through involvement in actual problem solving, students apply advanced academic skills and define goals for further study. It is offered as a dual enrollment course through a cooperative agreement between Pinellas County Schools and St. Petersburg College. Executive Internship Coordinators, who are certified teachers, serve as liaisons between students, schools, and agencies involved; both high school and college credit are earned for the course.

The course credit which is awarded for this experience recognizes the importance of school and community partnerships in developing dedicated professionals and effective leaders. By extending career development beyond selecting appropriate professions and defining long-term goals, students actively work with personnel in a variety of professional fields, such as medicine, law, communications, government, business, and social services. Interns attend important meetings, prepare reports, analyze data, make public presentations, and recommend courses of action. Unlike a work study experience where students are paid for work in entry level positions, the Executive Internship Program pairs students with professionals who model leadership skills. In addition to determining their aptitude for a specific profession, students are encouraged to aspire to leadership roles and to explore career options within the field.

Colleges and universities find that professional goals of Executive Internship graduates have been tested through experience and students have become effective self-directed learners. They are recognized as excellent candidates for the high expectations of colleges and universities and are often awarded scholarships or admitted to target programs as a direct result of their manifested commitment to the career and to personal and professional excellence. Sponsors who have participated in the Executive Internship Program see internship students as having well- focused goals, interest in the field, and practical ability in problem solving. Similar programs are offered across the nation, and since its introduction to Florida in 1972, the program has provided thousands of students with unique career-related experiences. Follow-up surveys indicate that graduates of Executive Internship have completed programs of higher education and have become successful professionals who credit the Executive Internship Program as being a defining experience in their lives.
