

## **HIGH SCHOOL AUDITORIUM (ENTRY, LOBBY, TICKET BOOTH AND RESTROOMS)**

### **New Construction**

#### **I. PROGRAM PHILOSOPHY**

The auditorium functions as a performing and instructional area for the student body. It also provides for theater curriculum, large group instruction, testing, and extra-curricular activities. In addition, it contributes to the community's sense of values from a practical and aesthetic point of view.

#### **II. PROGRAM GOALS**

A. The auditorium is planned, arranged, equipped, and sufficiently flexible to facilitate the achievement of curriculum objectives while providing for the safety, health, and comfort of all its occupants.

B. The auditorium provides adequate storage space and centralized services for facilities and furnishings for a seating capacity per the State Requirements of Educational Facilities (S.R.E.F.).

C. The auditorium makes a desirable contribution to the total educational program and the learning experiences of all students and interested community members.

D. The auditorium provides for theatrical performances and large group instruction.

#### **III. PROGRAM ACTIVITIES**

A. Dramatic presentations

B. Assembly programs

C. Musicals

D. Films

E. Concerts

F. Dance

#### IX. SPECIAL CONSIDERATIONS

- Heating/Cooling/Ventilation

Standard climate control thermostats will be located in each space as appropriate for their use.

- Acoustics

Acoustically treated walls and ceilings shall provide maximum noise control in individual spaces and between walls.

- Walls

Solid walls between Auditorium and new construction areas.

- Lighting

Lobby and associated areas should have some ornate light fixtures as well as fixtures for standard use and cleaning.

- Doors

Two sets of swinging doors to lobby to create a sound and light trap for entering the Auditorium

- Plumbing

Lobby – Two refrigerated water fountains.
