Since 1962, Pinellas Technical College has offered students first-rate career and technical education on both our Clearwater and St. Petersburg campuses.

Pinellas Technical College’s emphasis is on post-secondary education, focusing on over 40 exciting career areas and nearly 60 programs.

Pinellas Technical College also offers continuing education courses, life enrichment courses and commercial training services through the Office of Workforce Innovation.

The Pinellas Technical College experience is rich with relevant, stimulating, and challenging career and technical education. Our network of more than 250 business and industry partners serve as advisors for our programs, ensuring they are preparing students for the needs of the current and future workforce.

Each campus is individually accredited by the Council on Occupational Education and the Southern Association of Colleges and Schools. Pinellas Technical College is an alliance member of the Commission of International and Trans-Regional Accreditation. Most Pinellas Technical College programs are also individually accredited or approved by one or more professional accrediting bodies and licensing and certification agencies.

PTC has been a leader in providing career and technical education via distance learning. Through first-class training and support from our highly skilled faculty and staff, graduates are prepared to compete in a global job market.

We are committed to providing quality educational opportunities to qualify our students’ needs and the needs of business and industry. Employers throughout the Tampa Bay area recognize our Pinellas Technical College graduates as having the qualities, skills, and knowledge necessary for success on the job now and in the future.
