Since 1962, Pinellas Technical College has offered students first-rate career and technical education on both our Clearwater and St. Petersburg campuses.

Pinellas Technical College’s emphasis is on post-secondary education, focusing on over 40 exciting career areas and nearly 60 programs.

Pinellas Technical College also offers continuing education courses, life enrichment courses and commercial training services through the Office of Workforce Innovation.

The Pinellas Technical College experience is rich with relevant, stimulating and challenging career and technical education. Our network of more than 250 business and industry partners serve as advisors for our programs, ensuring they are preparing students for the needs of the current and future workforce.

Each campus is individually accredited by the Council on Occupational Education and the Southern Association of Colleges and Schools. Pinellas Technical College is an alliance member of the Commission of International and Trans-Regional Accreditation. Most Pinellas Technical College programs are also individually accredited or approved by one or more professional accrediting bodies and licensing and certification agencies.

PTC has been a leader in providing career and technical education via distance learning. Through first-class training and support from our highly skilled faculty and staff, graduates are prepared to compete in a global job market.

We are committed to providing quality educational opportunities to meet our students’ needs and the needs of business and industry. Employers throughout the Tampa Bay area recognize our Pinellas Technical College graduates as having the qualities, skills, and knowledge necessary for success on the job now and in the future.

To be our communities’ first choice for workforce education.
Automotive Service Technology 1
Obtain the skills of an entry-level technician in the automotive industry through Automotive Service Technology 1 courses. Cover estimating and evaluating body damage, inspection, measuring, and repairing and replacing, and inspecting electrical and critical systems. Length: 320 hrs (approx 3 mos) Tuition: $935 Other: $2,136* (books, equipment & fees; estimate)

Automotive Service Technology 2
Prepare for employment in the automotive industry through hands-on practical experience in providing Express service and in diagnose and repair engine systems with Honda factory influence. Students must complete Automotive Service Technology 1 or demonstrate mastery of the underlying principles of technology, and health, safety, and environmental issues. Length: 750 hrs (approx 8 mos) Tuition: $2,190 Other: $413 (books, equipment & fees; estimate)

Automotive Collision Technology
Learn to identify and measure body damage, repair, and install new or recycled body parts. Prepares for state-licensed towing in order to remove disabled vehicles from the roadways and get them to service centers for repairs. Length: 900 hrs (approx 9 mos) Tuition: $2,628 Other: $668 (books, equipment & fees; estimate)

Commercial Photography Technology 1
Commercial Photography Technology 1 is designed to prepare students for employment in the digital photography industry. Students will learn techniques required in the practice of a facials specialist. Prepares for state licensing as a Florida Class B licensed facialist. Length: 320 hrs (approx 3 mos) Tuition: $1,898 Other: $779 (books, equipment & fees; estimate)

Cosmetology
Learn about making breads, bakery goods, creams/mousses, chocolate and sugar decorations, and formal dining desserts and dessert displays. Prepares students for state licensing as a Florida class C cosmetologist. Length: 1,080 hrs (approx 10 mos) Tuition: $4,807 Other: $3,769 (books, equipment & fees; estimate)

Early Childhood Education
Students will understand and demonstrate the following elements of the program: child development and learning; health, safety and environmental issues; and developmentally appropriate practices for school age children and program management. Prepares students for a position as a lead teacher in a group care setting and to be in charge of children in group care. Length: 1,050 hrs (approx 11 mos) Tuition: $3,066 Other: $1,147 (books, equipment & fees; estimate)

Medical Coder/Biller
Prepare for employment in the billing and auditing industry as a coder/biller, and as a commercial or managed care professional through hands-on learning and application. Prepares students for state-licensed medical coding and billing. Length: 200 hrs (approx 2 mos) Tuition: $1,914 Other: $370 (books, equipment & fees; estimate)

Nutrition
Understand and demonstrate the knowledge and skills required of a Licensed Practical Nurse. Prepares students for a position as a LPN or RN in a variety of clinical settings. Length: 1,050 hrs (approx 11 mos) Tuition: $3,066 Other: $1,147 (books, equipment & fees; estimate)

Pharmacy Technician
Train to perform the duties of a pharmacy technician as per the State of Florida guidelines. Prepares students for state licensing as a Registered Pharmacy Technician (RPh). Length: 250 hrs (approx 3 mos) Tuition: $1,914 Other: $197 (books, equipment & fees; estimate)

Welding Technology – Advanced
Prepare for certification and employment as an advanced welder in emerging industries. Prepares for state licensing as a Florida Class B Welding Inspector. Length: 750 hrs (approx 8 mos) Tuition: $2,190 Other: $413 (books, equipment & fees; estimate)

Other Programs
For full-time, part-time, online, and noncredit courses, visit mpytc.edu.
Obtain the skills of an advanced-level technician in the automotive industry through hands-on practical experience in maintaining, troubleshooting, replacing and repairing brake systems, steering & suspension, electrical systems and engine repair

Length: 240 hrs (approx 2.5 mos) Tuition: $701 Other: $956* (bks, equip & fees; estimate)

Business & Information Technology

- Computer Systems & Information Technology
  - Length: 900 hrs (approx 9 mos) Tuition: $2,628 Other: $668 (bks, equip & fees; estimate)
  - Prepare for the A+, Network+, and Security+ certification exam.

- Child Care Center Operations
  - Length: 500 hrs (approx 6 mos) Tuition: $1,485 Other: $1,912 (bks, equip & fees; estimate)
  - Learn how to operate a child care center by developing competencies required for a Florida Business Administration in Child Care Program.

- Home Health Aide
  - Length: 150 hrs (approx 1.5 mos) Tuition: $450 Other: $720 (bks, equip & fees; estimate)
  - Prepare to be in charge of children in group care.

- Business & Information Technology
  - Length: 1110 hrs (approx 11 mos) Tuition: $3,242 Other: $1,687 (bks, equip & fees; estimate)
  - Prepare for a variety of positions in the culinary industry including dining room server, bartender, prep cook, busboy, dishwashers, line cook, prep cook, pastry cook/baker and pastry chef.

- Personal Care Assistant
  - Length: 165 hrs (approx 4 mos) Tuition: $854 Other: $206* (bks, equip & fees; estimate)
  - Prepare for the Certified Phlebotomy Technician's exam to become a Registered Phlebotomy Technician (RPT).

- Phlebotomy
  - Length: 165 hrs (approx 4 mos) Tuition: $854 Other: $206* (bks, equip & fees; estimate)
  - Prepare to perform as a professional phlebotomist, primarily drawing blood. After completion of the program, access a state-by-state list of required skills and knowledge.

- Healthcare Management
  - Length: 1050 hrs (approx 11 mos) Tuition: $3,066 Other: $2,256 (bks, equip & fees; estimate)
  - Learn about shampoos, rinses, scalp treatments, and hair care.

- Pharmacy Technician
  - Length: 165 hrs (approx 4 mos) Tuition: $854 Other: $206* (bks, equip & fees; estimate)
  - Prepare for certification and employment as a pharmacy technician.

- Dental Social Work
  - Length: 600 hrs (approx 7 mos) Tuition: $1,795 Other: $3,624 (bks, equip & fees; estimate)
  - Learn about dental health, preventive dentistry, dental materials and dental laboratory skills.

- Central Sterile Processing Technology
  - Length: 1050 hrs (approx 11 mos) Tuition: $3,066 Other: $929 (bks, equip & fees; estimate)
  - Prepare to be a sterilization technician using modern technology.

- Dental Assisting
  - Length: 700 hrs (approx 7 mos) Tuition: $2,044 Other: $2,310 (bks, equip & fees; estimate)
  - Prepare to be a dental assistant.

- Welding Technology – Advanced
  - Length: 750 hrs (approx 8 mos) Tuition: $2,190 Other: $1,977 (bks, equip & fees; estimate)
  - Prepare for certification and employment as a welder in the fabrication and repair of welding equipment and structures.

- Medical Assistant – Medical Office Management
  - Length: 500 hrs (approx 6 mos) Tuition: $1,485 Other: $1,912 (bks, equip & fees; estimate)
  - Learn about medical procedures, history taking, record keeping, legal and ethical issues.

- Phlebotomy Technician
  - Length: 165 hrs (approx 4 mos) Tuition: $854 Other: $206* (bks, equip & fees; estimate)
  - Prepare to perform as a professional phlebotomist, primarily drawing blood. After completion of the program, access a state-by-state list of required skills and knowledge.

- Healthcare Management
  - Length: 1050 hrs (approx 11 mos) Tuition: $3,066 Other: $2,256 (bks, equip & fees; estimate)
  - Learn about shampoos, rinses, scalp treatments, and hair care.

- Pharmacy Technician
  - Length: 165 hrs (approx 4 mos) Tuition: $854 Other: $206* (bks, equip & fees; estimate)
  - Prepare for certification and employment as a pharmacy technician.

- Dental Social Work
  - Length: 600 hrs (approx 7 mos) Tuition: $1,795 Other: $3,624 (bks, equip & fees; estimate)
  - Learn about dental health, preventive dentistry, dental materials and dental laboratory skills.

- Central Sterile Processing Technology
  - Length: 1050 hrs (approx 11 mos) Tuition: $3,066 Other: $929 (bks, equip & fees; estimate)
  - Prepare to be a sterilization technician using modern technology.

- Dental Assisting
  - Length: 700 hrs (approx 7 mos) Tuition: $2,044 Other: $2,310 (bks, equip & fees; estimate)
  - Prepare to be a dental assistant.
**Automotive Service Technology 1**

Length: 750 hrs (approx 8 mos) Tuition: $2,190 Other: $1,977 (bks, equip & fees; estimate)

Prepare for employment as a machinist, lathe, grinding or mill operator, welder, welder helper, welder, welder helper, or welding industry worker. This program includes instruction in technical, safety, and health principles, welding equipment and techniques, welding safety, welding alloy, metal properties, engineering basics, materials, welding process selection, and welding related mathematical principles. Students must complete Diesel Systems 1 or demonstrate mastery of the program outcomes prior to enrollment in Diesel Systems 2. Training includes basic welding skills and techniques, basic welding science, welding inspection, welding math, and welding health and safety.

**Advanced Automotive Transportation**

Length: 1350 hrs (approx 14 mos) Tuition: $3,942 Other: $3,477 (bks, equip & fees; estimate)

Gain the quality skills and craftsmanship to obtain a position in the welding industries, using shielded metal arc welding (SMAW), pipe fitting, and assembly skills. Course work emphasizes welding technology, welding health and safety, welding research and development, welding and welding technology equipment, and welding classics in industry. Training includes welding safety, welding and welding technology equipment, welding automation, and welding research and development.

**Central Sterile Processing Technology**

Length: 1080 hrs (approx 11 mos) Tuition: $3,154 Other: $1,661 (bks, equip & fees; estimate)

Prepare to be a Certified Registered Central Service Technician through the American Health Care Association. This program focuses on broad, transferable skills and stresses understanding and applying the principles of infection control. Training includes infection control, infection control fundamentals, and the development of professional skills critical to the success of the Central Service Technician. Students must complete Practical Nursing and demonstrate mastery of the program outcomes prior to enrollment in Central Sterile Processing Technology. Program includes instruction in infection control, infection control fundamentals, and the development of professional skills critical to the success of the Central Service Technician.

**Interior Decorating Services**

Length: 450 hrs (approx 5 mos) Tuition: $1,314 Other: $644* (bks, equip & fees; estimate)

Experience a “hands-on” approach using the design tools, materials and underlying principles of technology, and health, safety and environmental issues. This program prepares students for employment as an interior designer, providing the consumer or business with the vision to transform and enhance their environment. Students will develop an innovative approach to Audio/Visual/Lighting technology. Training includes the design, layout and construction of lighting and audio/visual equipment. Students will develop skills needed to perform as a professional phlebotomist, primarily drawing blood. After completion of the program in a practica role, the student may seek employment in the dietary field. A state license is necessary to perform phlebotomy tasks. The program must be open to enroll in the Phlebotomy program.

**Pharmacy Technician**

Length: 450 hrs (approx 5 mos) Tuition: $1,314 Other: $644* (bks, equip & fees; estimate)

Prepare for employment as a pharmacy assistant. Content includes the opportunity to attain a Class B driver's license. Training includes the administration of treatments and medication in the care of the ill and infirm. Students must complete a practica role and demonstrate mastery of the program outcomes prior to enrollment in the Phlebotomy program. Program includes instruction in the administration of treatments and medication in the care of the ill and infirm. Students must complete a practica role and demonstrate mastery of the program outcomes prior to enrollment in the Phlebotomy program.

**Manufacturing**

**Jewelry Design & Repair 1**

Prepare for a career as a jeweler. Students will learn design, materials, and production processes involved in the creation of jewelry. After completion of the program in a practica role, the student may seek employment in the jewelry manufacturing industry. Training includes the development of practical skills and craftsmanship to create and repair jewelry. Training includes the administration of treatments and medication in the care of the ill and infirm. Students must complete a practica role and demonstrate mastery of the program outcomes prior to enrollment in the Phlebotomy program. Program includes instruction in the administration of treatments and medication in the care of the ill and infirm. Students must complete a practica role and demonstrate mastery of the program outcomes prior to enrollment in the Phlebotomy program.

**Jewelry Design & Repair 2**

Prepare for employment as a jeweler. Students will learn design, materials, and production processes involved in the creation of jewelry. After completion of the program in a practica role, the student may seek employment in the jewelry manufacturing industry. Training includes the development of practical skills and craftsmanship to create and repair jewelry. Training includes the administration of treatments and medication in the care of the ill and infirm. Students must complete a practica role and demonstrate mastery of the program outcomes prior to enrollment in the Phlebotomy program. Program includes instruction in the administration of treatments and medication in the care of the ill and infirm. Students must complete a practica role and demonstrate mastery of the program outcomes prior to enrollment in the Phlebotomy program.
Since 1962, Pinellas Technical College has offered students first-rate career and technical education on both our Clearwater and St. Petersburg campuses.

Pinellas Technical College’s emphasis is on post-secondary education, focusing on over 40 exciting career areas and nearly 60 programs. Pinellas Technical College also offers continuing education courses, life enrichment courses and commercial training services through the Office of Workforce Innovation. The Pinellas Technical College experience is rich with relevant, stimulating, and challenging career and technical education. Our network of more than 250 business and industry partners serve as advisors for our programs, ensuring they are preparing students for the needs of the current and future workforce.

Each campus is individually accredited by the Council on Occupational Education and the Southern Association of Colleges and Schools. Pinellas Technical College is an alliance member of the Commission of International and Trans-Regional Accreditation.
