EDUCATION FOUNDATION GRANTS

GRANT PROCUREMENT
INTRODUCTION

This report has been prepared to detail the special projects and programs that have been awarded to the Pinellas County Schools in support of the district's strategic directions during the 2011-2012 school year.

REPORT

This document provides pertinent information relative to each of the 120 programs funded in the total amount of $90,720,028.36 either directly or indirectly through the activities and efforts of the special projects office. Specifically, the following information is included.

- Project manager
- Project number
- Funded amount

In addition, the document contains a brief description of each project, the program purpose, and the program overview. As with all printed documents, there is a possibility that some of the projects included in this report may later receive additional funding, lose funding, or be amended or modified since the project data and information were first collected. It is advisable to consult with the project manager or special projects office before using information contained in this document for any official report.

SPECIAL PROJECTS OFFICE

The special projects office is responsible for assuring that the school district has the opportunity to participate in, and maintain compliance for participation in grant programs available through federal, state, local and private sources. The office maintains information regarding existing and pending legislation specific to grants and communicates this information to appropriate school district personnel and the community. A Moodle site and a grants information web page on the district website are available and updated on a regular basis.

The office also provides necessary technical assistance for the development of grant proposals and grant-funded contracts. The special projects office assists with project negotiations and monitors the implementation of regulations, policies, and restrictions of various programs. Furthermore, the office monitors budgetary expenditures, guarantees local commitments, facilitates submission of reports, maintains documents for audit purposes, and coordinates implementation activities of multi-department grant projects. The office serves as grants liaison between the school district and various community agencies and the non-public schools which may be eligible to receive services through certain federal grants.
Department Goals:

- Develop competitive contracts and grant applications that support the District Strategic Plan
- Align budgets and expenditures of grants and contracts with School Board Policy for Fiscal Management
- Ensure effective implementation of grant/contract projects in alignment with applications, federal and state regulations, School Board Policy, and the District Strategic Plan
- Effectively communicate with internal and external stakeholders

Grant Procurement

During the 2011-2012 school year, the Special Projects Office reviewed 87 competitive grant opportunities that were presented to various departments, schools, program offices, and teachers as potential funding opportunities.

Grant proposals developed and submitted: 76

Grants awarded: 41

Total of grant funds awarded: $2,213,348.00

Grants pending funding decision: 9

Reasons the district did not apply for a funding opportunity included:
- district did not qualify for proposed funding
- funding guidelines did not align with district’s strategic directions or program office goals
- program office declined due to time constraints
- grant program cancelled by funding source
- partner organization decided not to apply
- not invited to submit after pre-application or letter of interest
- schools not responding to invitation to apply
