How You Can Make a Difference...

The Connect for Success (C4S) program provides student take-home laptops at Title I schools in Pinellas County. Your Internet sponsorship will allow for student self-paced learning making education more accessible, granting easier access to study and research materials, integrating classroom learning, and facilitating communication.

- A one-time contribution of \$120 will grant internet access to one student for a year.
- A one-time School Adoption contribution of \$2,400 will connect 20 students from low-income families.
