Independent Auditors' Report

The Honorable Members of the School Board
District School Board of Pinellas County, Florida
Largo, Florida

We have audited the accompanying financial statements of the governmental activities, each major fund, the aggregate discretely presented component units, and the aggregate remaining fund information of the District School Board of Pinellas County, Florida (the "District"), as of and for the year ended June 30, 2004, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Pinellas County Education Foundation, Inc., Academie Da Vinci Charter School, Inc. and the Pinellas Preparatory Academy, Inc., which represent 99.81 percent and 93.36 percent, respectively, of the assets and revenues of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for these component units, is based solely on the reports of other auditors.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

The financial statements of The Athenian Academy, Inc. have not been audited, and we were not engaged to audit these financial statements as part of our audit of the District's basic financial statements. The financial activities of this entity are included in the District's basic financial statements as a discretely presented component unit and represent .19 percent and 6.64 percent of the assets and revenues, respectively, of the District's aggregate discretely presented component units.

Pursuant to State Board of Education Rule 6A-1.087, Florida Administrative Code, the Board is required to otherwise provide for audits of the school activity funds, commonly called the school internal funds. Accordingly, our audit did not extend to the school internal funds reported as Agency Funds on the accompanying basic financial statements. These financial activities represent 12.4 percent and 23.2 percent of the assets and liabilities, respectively, of the aggregate remaining fund information.
In our opinion, except for the effects of such adjustments on the aggregate remaining fund information, if any, as might have been determined to be necessary had we extended our audit to the school internal funds, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, the aggregate discretely presented component units, and the aggregate remaining fund information of the District as of June 30, 2004, and the respective changes in financial position and cash flow, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated February 15, 2005 on our consideration of the District’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management’s Discussion and Analysis and the other required supplementary information on pages 3 through 11, 41 and 42 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consist principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District’s basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financial statements. This schedule is the responsibility of the District’s management. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended June 30, 2004 and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

St. Petersburg, Florida
February 15, 2005
MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management of the District School Board of Pinellas County (the "District") has prepared the following discussion and analysis to: (a) assist the reader in focusing on significant financial issues; (b) provide an overview and analysis of the District’s financial activities; (c) identify changes in the District’s financial position; (d) identify material deviations from the approved budget; and (e) highlight significant issues in individual funds.

Because the information contained in the Management's Discussion and Analysis (MD&A) report is intended to highlight significant transactions, events and conditions, it should be considered in conjunction with the District’s financial statements found on page 12.

Overview of the Financial Statements

The basic financial statements consist of three components:

- Government-wide financial statements ("District-wide")
- Fund financial statements
- Notes to the financial statements

In addition, this report presents certain required supplementary information, which includes Management's discussion and analysis.

The major features of the District's financial statements, including the portion of the activities reported and the type of information contained, is shown in the following table.

District-wide Financial Statements

The district-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net assets and a statement of activities that are designed to provide consolidated financial information about the governmental and business-type activities of the Primary Government presented on the accrual basis of accounting. The statement of net assets provides information about the government's financial position—and its assets and liabilities—using an economic resources measurement focus. The difference between the assets and liabilities, the net assets, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net assets, the results of operations, during the fiscal year. An increase or decrease in net assets is an indication of whether the District's financial health is improving or deteriorating.
The district-wide statements present the District’s activities in two categories:

- **Governmental Activities** – This represents most of the District’s services, including its educational programs: basic, vocational, adult, and exceptional education. Support functions, such as transportation and administration, are also included. Local property taxes and the state’s education finance program provide most of the resources that support these activities.

- **Component Units** – The District presents four separate legal entities in this report (a foundation, and three charter schools). Although legally separate organizations, the component units are included in this report because the schools meet the criteria for inclusion provided by generally accepted accounting principles.

Over a period of time, changes in the District’s net assets are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the District’s property tax base, student enrollment, and the condition of the District’s capital assets including its school buildings and administrative facilities.

**Fund Financial Statements**

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law, while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District’s financial activities, focusing on its most significant or “major” funds rather than fund types.

All of the District’s funds may be classified within one of three broad categories:

**Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the district-wide financial statements. However, the governmental funds utilize a spendable financial resources measurement focus, rather than the economic resources measurement focus found in the district-wide financial statements. This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Consequently, the governmental fund statements provide a detailed short-term view that may be used to evaluate the District’s near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the district-wide financial statements. To facilitate this comparison, both the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.
Proprietary Fund

The internal service fund is used to account for the District's self-insurance programs.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the district-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

District-Wide Financial Analysis

Net Assets – Below is a summary of the District's net assets for the year ended June 30, 2004, as compared to June 30, 2003.

</tbody>
</table>

The District's net assets increased 5.06% to $1.5 billion. This was attributed to an increase in capital assets of approximately $102 million. The District reported an unrestricted net asset deficit of $28 million, due to the accounting methodology required by GASB-34. This represents an increase in the net asset deficit of 64% from 2003. The calculation of net assets includes the historical cost of school buildings that does not reflect the fair value. Pinellas County's schools and support buildings are in excellent condition as a result of sufficient annual funds appropriated for maintenance and repair.
Changes in Net Assets - The table below shows the changes in net assets for 2003 and 2004.

Financial Analysis of Individual Funds

The District completed the year with a total governmental fund balance of $220.6 million, a decrease of $30.8 million over the 2003 fund balance of $251.4 million.

The General Fund had an $11 million decrease in fund balance to $65.1 million.

The other major capital outlay funds changed as follows:

- Capital Improvement Section 236.25(2) Fund decreased $3.7 million to $111.2 million. This decrease is a result of expenditures incurred as a result of construction needs.

- Capital Projects – Other, whose largest portion was the Classroom’s First allocation, decreased from $31.2 million to $19.5 million. The reason for the fund balance decrease was the construction of new and rebuilt schools, as well as numerous other renovation projects. The majority of the revenue for this construction had been collected in previous years. The decrease in fund balance resulted from expenditures incurred related to the construction of new facilities.

Other Governmental Funds also experienced a reduction of fund balance from $29.3 million in 2003 to $24.7 million in 2004.

Budget Variance in the General Fund

Overall, actual General Fund revenue exceeded the final budget by $397,352. This variance was due an increase in local revenue. Appropriations experienced a small decrease. The original budget anticipated receiving slightly less revenue than was actually realized in the final budget. Likewise, final budgeted expenditures were less than those anticipated in the original budget, due mainly to lower budgeted instructional expenditures. The financial model used by the District to predict future needs suggested some realignment resulting in reduced expenditures to “live within our means”. This action was in part perpetuated by the proposed legislative funding, which was under consideration that was deemed insufficient to meet future District needs.

Capital Assets and Long-Term Debt

Capital Assets

By the end of fiscal year 2004, the District had invested over $1.4 billion in a broad range of capital assets, including buildings, sites and equipment. This amount represents a net increase of $100 million from 2003. More detailed information concerning capital assets can be found in Note 6 to the financial statements. Accumulated depreciation on these assets was $455.5 million.

- Asset acquisitions totaled $508.2 million which includes $366.8 million increase in buildings and fixed equipment.

- Capital assets deletions were $373.3 million, of which $13.1 million was the result of the razing of three schools, as well as a $348.4 million decrease in construction in progress for capital projects that were completed at fiscal year end.

- The net change to construction in progress reflected a decrease of $241.3 million.

- The District recognized depreciation expense of $48 million for the year.

Significant Economic Factors

The District continues to endure funding challenges. In order to meet anticipated future funding needs the District has decided to seek a referendum which would allow the District to levy an additional half of a millage. The referendum will be put to a vote in the November 2005 election. If successful, it will provide additional funding for the next four years.
Requests for Information

This financial report is designed to provide a general overview of the Pinellas County District School Board's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Accounting, Pinellas County District School Board, Post Office Box 2942, Largo, FL 33779-2942.

</table>

The notes to the financial statements are an integral part of this statement.
Amounts reported for governmental activities in the statement of activities are different because:

**Net change in fund balances - Total Governmental Funds**

$ (30,837,663)

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This amount of capital outlays in excess of depreciation expense in the current period.

111,721,327

The loss on disposal of capital assets during the current period was reported in the statement of activities. The cost of these assets was recognized as an expenditure in the governmental funds in the year of purchase.

(9,781,552)

Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.

2,208,584

In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds expenditures are recognized based on the amounts actually paid for leave used. This is the net amount of vacation and sick leave earned in excess of the amount used in the current period.

(1,231,357)

The internal service fund was used by management to charge the costs of certain activities, such as insurance, to individual funds. The net income of the internal service fund was reported with governmental activities.

375,070

**Change in net assets of Governmental Activities**

$ 72,454,409

The notes to the financial statements are an integral part of this statement.

Note 1 - Summary Of Significant Accounting Policies

Reporting Entity

The District School Board of Pinellas, Florida (the District) is considered a primary government for financial reporting. The District is considered part of the Florida System of Public Education. The governing body of the District is the Pinellas District School Board (the School Board), which is composed of seven elected members and has direct responsibility for operation, control, and supervision of District schools. The appointed Superintendent of Schools is the executive officer of the School Board. The general operating authority of the School Board and Superintendent is contained in Chapters 228 through 238 of the Florida Statutes. Geographic boundaries of the District correspond with those of Pinellas County.

Pursuant to Section 237.01, Florida Statutes, the Superintendent of Schools is responsible for keeping records and accounts of all financial transactions in the manner prescribed by the State Board of Education.

Criteria for determining if other entities are potential component units, which should be reported within the District’s basic financial statements are identified and described in the Governmental Accounting Standards Board’s (GASB) Codification of Governmental Accounting and Financial Reporting Standards, Sections 2100 and 2600. The application of these criteria provide for identification of any entities for which the District is financially accountable and other organizations for which the nature and significance of their relationship with the School Board are such that exclusion would cause the District’s basic financial statements to be misleading or incomplete.

As required by accounting principles generally accepted in the United States, these basic financial statements present the District (the primary government) and its component units. The component units discussed below are included in the District reporting entity because of the significance of their operational or financial relationships with the District.

*Discretely Presented Component Units* - The component unit columns in the basic financial statements include the financial data of the District’s component units. These component units consist of the Pinellas County Education Foundation, Inc., and the following Charter Schools: Academie Da Vinci Charter School, Inc., The Athenian Academy Charter School, Inc and the Pinellas Preparatory Academy, Inc.

The Pinellas County Education Foundation, Inc. (the Foundation) is a separate not-for-profit corporation organized and operated as a direct-support organization under Section 237.40, Florida Statutes. The Pinellas County Education Foundation receives, holds, invests and administers property and makes expenditures to or for the benefit of the District. An annual post audit of the organizations’ financial statements was conducted by an independent certified public accountant and is filed in the District’s administrative office.

The Charter Schools are separate not-for-profit corporations, organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act, and Section 228.056, Florida Statutes. The Charter Schools operate under charters approved by their sponsor, the Pinellas County District School Board. Audits of the financial statements for the Charter Schools (with the exception of The Athenian Academy, Inc. which was not audited) were conducted by independent certified public accountants and are filed in the District’s administrative offices.
Note 1 - Summary Of Significant Accounting Policies (continued)

Basis of Presentation

Government-wide Financial Statements – Government-wide financial statements, including the statement of net assets and statement of activities, present information about the District as a whole. These statements include the nonfiduciary financial activity of the primary government and its component units.

Government-wide financial statements are prepared using the economic resources measurement focus. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function.

Depreciation expense, which can be associated with a specific program or activity, are allocated to the related function, while remaining depreciation expense is reported as unallocated. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

The effects of interfund activity have been eliminated from the government-wide financial statements.

Fund Financial Statements – Fund financial statements report detailed information about the District in the governmental, proprietary, and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Non-major funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, a reconciliation is presented with each of the governmental fund financial statements.

The District reports the following major governmental funds:

General Fund - to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.

Capital Projects - Capital Improvement Section 236.25(2) Fund – to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects.

Capital Projects – Other – to account for the financial resources generated by Classroom First funds and "Penny for Pinellas" funds. These funds are used for capital outlay needs.
Note 1 - Summary Of Significant Accounting Policies (continued)

Additionally, the District reports the following fund types:

Internal Service Fund – to account for the District’s individual self-insurance programs. Special Revenue Funds - to account for the financial resources of the school food service program and certain Federal, State and local grant program resources.

Agency Funds - to account for resources of the school internal funds, which are used to administer moneys, collected at several schools in connection with school, student, athletic, class, and club activities. Also, to account for resources held by the District as custodian for others.

Basis of Accounting - Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are prepared using the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are prepared using the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 21 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred. The principal exceptions to this general rule are: (1) prepaid items are generally not accrued; (2) interest on long-term debt is recognized as expenditures when due; and (3) expenditures related to liabilities reported as long-term debt are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Proprietary Funds are accounted for as proprietary activities under standards issued by the Financial Accounting Standards Board through November 1989 and applicable standards issued by the Governmental Accounting Standards Board. The proprietary fund distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services. The principal operating revenues of the District’s internal service fund are charges for workers’ compensation, general liability, and auto liability self-insurance and claims. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.
Note 1 - Summary Of Significant Accounting Policies (continued)

When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, and then unrestricted resources as they are needed.

The Pinellas County Education Foundation, Inc., shown as a discretely presented component unit, is accounted for under the not-for-profit basis for accounting and uses the accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when incurred.

Each of the charter schools, included as discretely presented component units, implemented the requirements of the Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements – and Management’s Discussion and Analysis - for State and Local Governments, concurrently with the District. The financial statements are prepared using the accrual basis of accounting.

*Deposit and Investments* - Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance and collateralized with securities held in Florida’s multiple financial institution collateral pool as required by Chapter 280, Florida Statutes. The statement of cash flows considers cash and cash equivalents to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments consist of amounts placed with the State Board of Administration for participation in the Local Government Surplus Funds Trust Fund investment pool created by Section 218.405, Florida Statutes, and those made locally. The investment pool operates under investment guidelines established by Section 214.57, Florida Statutes. The District’s investments in the Local Government Surplus Trust Fund, a Securities and Exchange Commission-Rule 2a7-like external investment pool, are reported at amortized cost. The reported value of the pool is the same as the fair value of the pool shares.

Investments made locally consist of U.S. Agency Securities, collateralized mortgage obligations, corporate asset backed securities, and money market funds are reported at fair value. Types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

*Inventories* - Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost on a moving average basis, except the United States Department of Agriculture surplus commodities are stated at fair value, as determined at the time of donation to the District’s food service program by the Florida Department of Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used, rather than when purchased.

*Use of Estimates* - The preparation of the basic financials statement in accordance with generally accepted accounting principals requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

*Capital Assets* - Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net assets but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than $750. Such assets are recorded at historical cost or estimated
Note 1 - Summary Of Significant Accounting Policies (continued)

historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<table>
<thead>
<tr>
<th>Description</th>

<td>5 – 15</td>
</tr>
<tr>
<td>Audio visual materials and computer software</td>
<td>5 – 10</td>
</tr>
</tbody>
</table>

Current-year information relative to changes in general fixed assets is described in a subsequent note.

Long Term Liabilities - Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net assets.

In the governmental-wide financial statements, bonds and other long-term obligations are not recognized as liabilities until due.

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability is reported in the governmental fund financial statements only for the current portion of compensated absences expected to be paid using expendable available resources.

Changes in long-term debt for the current year are reported in a subsequent note.

State Revenue Sources - Revenues from State sources for current operations are primarily from the Florida Education Finance Program administered by the Florida Department of Education (Department), under the provisions of Section 1011.621, Florida Statutes. In accordance with this law, the Board determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE's and related data and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of one year following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations, based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs. The Department generally requires that categorical educational program revenues be accounted for in the General Fund. A portion of the fund
Note 1 - Summary Of Significant Accounting Policies (continued)

balance of the General Fund is reserved for the unencumbered balance of categorical educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay (PECO) money, to the District on an annual basis. The District also received an allocation under the lottery-funded Public School Capital Outlay Program (commonly called Classrooms First Program). The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department. Accordingly, the District recognizes the allocation of Public Education Capital Outlay and Classrooms First Program funds as deferred revenue until such time as an encumbrance authorization is received.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

District Property Taxes - The School Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Pinellas County Property Appraiser and are collected by the Pinellas County Tax Collector.

The School Board adopted the 2004 tax levy on September 16, 2003. Tax bills are mailed in October; and taxes are payable between November 1 of the year assessed and March 31 of the following year, at discounts of up to 4 percent for early payment.

Taxes become delinquent on April 1 of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the governmental-wide financial statements when the School Board adopts the tax levy. Property tax revenues are recognized in the governmental-wide financial statements when the District receives taxes, except that revenue is accrued for taxes collected by the Pinellas County Tax Collector at fiscal year end but not yet remitted to the District. Because any delinquent taxes collected after June 30 would not be material, delinquent taxes receivable are not accrued and no delinquent tax revenue deferral is recorded.

Mileages and taxes levied for the current year are presented in a subsequent note.

Federal Revenue Sources - The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to and approved by various granting agencies. For Federal awards, in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.
Note 2 - Budgetary Compliance And Accountability

Budgetary Information - The District follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds as described below:

Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.

Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any School Board meeting prior to the due date for the annual financial report.

Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.

Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

Note 3 - Investments

Generally accepted accounting principles require that the credit risk of investments be classified into the following three categories:

- Risk Category 1 - Insured or registered, or securities held by the District or its agent in the District's name.

- Risk Category 2 - Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the District's name.

- Risk Category 3 - Uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the District's name.

Certain investments, such as investment pools managed by other governments, cannot be categorized because the District's investments are not evidenced by specific, identifiable investment securities. Section 218.407, Florida Statutes, authorizes the Board to participate in the State Board of Administration investment pool. Section 236.24(2), Florida Statutes, as well as other general laws of Florida, also authorizes the Board to invest in obligations of the United States Treasury and United States agencies, bonds of the District, and Florida State Board of Education bonds. The District's investment in obligations of the United States Government agencies and instrumentalities includes Real Estate Mortgage Investment Conduits and other mortgage-backed securities.
Note 3 – Investments (continued)

</tbody>
</table>

Interfund balances are a result of: June 2004 charges for warehouse deliveries, central printing services and maintenance work orders; adjustment of self insurance reserves; capital outlay transfers to the general fund; reclassifications of expenditures between capital project funds; and short term cash flow borrowing. All interfund balances are expected to be repaid within one year.
District School Board of Pinellas County  
Notes to Financial Statements  
Year Ended June 30, 2004

Note 4 - Interfund Receivables, Payables and Transfers (continued)

The following is a summary of interfund transfers reported in the fund financial statements:

<table>

<td>2021</td>
</tr>
<tr>
<td>Total Bonds Payable</td>
<td>$ 42,190,000</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The State School Bonds were by the State Board of Education (SBE) on behalf of the District to finance capital outlay projects. The bonds mature serially and are secured by a pledge of the District’s portion of the State-assessed motor vehicle license tax. The State’s full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of Debt Service Fund resources, and compliance with reserve requirements are administered by the SBE and the State Board of Administration.
Note 9 - Bonds Payable (continued)

Annual requirements to amortize the bond debt outstanding as of June 30 are as follows:

<td>$17,314,111</td>
</tr>
</tbody>
</table>

For the governmental activities, compensated absences are generally liquidated with resources of the General Fund.
Note 11 - Reserve For Encumbrances

Appropriations in governmental funds are encumbered upon issuance of purchase orders for goods and services. Even though appropriations lapse at the end of the fiscal year, unfilled purchase orders of the current year are carried forward and the next year’s appropriations are likewise encumbered.

The Florida Department of Education requires that fund balances be reserved at fiscal year-end to report an amount likely to be expended from the 2004-05 fiscal year budget as a result of purchase orders outstanding at June 30, 2004.

Note 12 - Schedule of State Revenue Sources

</tbody>
</table>

Accounting policies relating to certain State revenue sources are described in Note 1.
Note 13 - State Retirement Program

Plan Description. All regular employees of the District are covered by the Florida Retirement System, a State administered cost-sharing multiple-employer defined benefit retirement plan (Plan). Plan provisions are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code, wherein Plan eligibility, contributions, and benefits are described in detail. Essentially all regular employees of participating employers are eligible and must enroll as members of the Plan. Benefits vest at six years or number of years of service. The Plan also includes an early retirement provision, but imposes a penalty for each year a member retires before the specified retirement age. The Plan provides retirement, disability, and death benefits and annual cost-of-living adjustments, as well as supplements for certain employees to cover social security benefits lost by virtue of retirement system membership.

A Deferred Retirement Option Program (DROP) was established effective July 1, 1998, subject to provisions of Section 121.091, Florida Statutes. It permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payment while continuing employment with a Florida Retirement system employer. An employee may participate in the DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the Florida Retirement System Trust Fund and accrue interest.

The Plan's financial statements and other supplemental information are included in the comprehensive annual financial report of the State of Florida, which may be obtained by contacting the Florida Department of Financial Services in Tallahassee, Florida. Also, an annual report on the Plan, which includes its financial statements, required supplemental information, actuarial report, and other relevant information, may be obtained from the State of Florida, Division of Retirement in Tallahassee, Florida.

Funding Policy - The contribution rates for Plan members are established, and may be amended, by the State of Florida. During the 2003-04 fiscal year, contribution rates were as follows:

<table>
<thead>
<tr>
<th>Class or Plan</th>
<th>Percent of Gross Salary</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Employee</td>
</tr>
<tr>
<td>Florida Retirement System:</td>
<td></td>

</tr>
<tr>
<td>State and County Officers and Employees' Retirement System, Plan B</td>
<td>4.00</td>
</tr>
<tr>
<td>Deferred Retirement Option Plan</td>
<td>0.00</td>
</tr>
</tbody>
</table>

Note: (A) Employer rates include the post-retirement health insurance supplements of 1.11% and 0.10% administrative educational fee.

The District's liability for participation in the Plan is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the District. The District's contributions to the Plan (including employee contributions) for the fiscal years ending June 30, 2002.
Note 13 - State Retirement Program (continued)

2003, and 2004 totaled $36,046,266, $29,585,239 and $37,942,133 respectively, which were equal to the required contributions for each fiscal year.

Pension Reporting - The financial statements and required supplemental information are included in the comprehensive annual financial report of the State of Florida, which may be obtained by contacting the Florida State Comptroller’s Office in Tallahassee, Florida. Also, an annual report on the Plan, which includes its financial statements, required supplemental information, actuarial report, and other relevant information may be obtained from the State of Florida, Division of Retirement in Tallahassee, Florida.

Note 14 - Tax Deferral Plans And Other Benefits

The District allows employees to participate in a 401(a) qualified retirement plan. Participation is required for employees that are retiring, terminating or entering DROP and have accumulated at least $2,500 of eligible terminal leave benefits. Contributions to the plan are made on a pre-tax basis. The maximum plan contribution cannot exceed 100% of plan year compensation or $40,000, whichever is less. Federal income taxes on plan contributions are deferred until distributions are taken. Employee contributions to the plan were $8,837,220 for the period ended June 30, 2004.

The District offers eligible employees participation in an optional tax deferred annuity program. The Internal Revenue Service, under code section 403(b), allows employees of the District to defer a portion of their income from federal income tax. The deferred earnings are placed in an investment vehicle selected by the employee, with the principal and interest tax deferred until withdrawn.

The District makes contributions to employee’s health insurance payments based upon elected coverage. The total amount contributed on behalf of the employees, for the year ended June 30, 2004 was $70,381,067.
### Note 15 - Construction Contract Commitments

</tbody>
</table>
Note 16 - Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees, students, or visitors; and natural disasters.

Pinellas County Schools has a self-funded insurance program which covers property claims up to $100,000, workers' compensation claims up to $350,000, and general and automobile liability claims up to $100,000 per claimant or $200,000 per occurrence, which is the statutory limit provided by the Sovereign Immunity Provision of Florida Statute 768.

The District partners with an insurance broker to obtain insurance coverage for losses that are not appropriate for the District to fully retain as self-insured exposures. The insurance purchased provides coverage for losses in excess of the workers' compensation, liability and property deductibles as well as coverage, subject to a deductible, for other losses which may occur from employment practices, errors and omissions and employee dishonesty, etc. This insurance protection limits the District's risk and financial exposure and provides protection from lawsuits.

The District contracts with a third party administrator that adjusts workers compensation and liability claims, subrogates claims, represents the District in mediations and assists attorneys with litigation.

At June 30, 2004, a liability of $21,311,113 was recorded for estimated insurance claims payable for claims incurred but not reported for worker's compensation, general liability and vehicle liability. The estimated insurance claims payable was recorded using the gross method which was actuarially determined.

The following schedule represents the changes in claims liability for the past two fiscal years for the District's self-insurance program:

<table>
<thead>
<tr>
<th></th>
<th>Additions</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Beginning of Year</td>

<tr>
<td>2003</td>
<td>$16,227,721</td>
</tr>
<tr>
<td>2004</td>
<td>$22,167,324</td>
</tr>
</tbody>
</table>

Property protection, boiler and machinery, errors and omissions, employment practices liabilities, employee dishonesty, and other coverage's deemed necessary by the Board are provided through purchased commercial insurance with deductibles for each line of coverage. In addition, health, dental, life and income protection coverage for District employees were offered through purchased commercial insurance.

Note 17 - Litigation

The District is a party to several lawsuits and claims, which it is vigorously defending. Such matters arise out of the normal course of its operation and are covered by insurance policies or the District's self insurance program. While the results of litigation cannot be predicted with certainty, management believes the final outcome of such litigation will not have a material adverse effect on the District's financial position.
Note 18 – Prior Period Adjustments

Prior period adjustments were made to correct the beginning fund balance of other governmental funds. The adjustments consisted of a correction to the prior year's retainage payable of the P.E.C.O. fund with a corresponding increase in fund balance and a $1,179 decrease in the permanent fund's balance to correct the prior year's unamortized bond premium.

Notes
1 Basis of Presentation:
The accompanying schedule of expenditures of federal awards includes the federal grant activity of the District School Board of Pinellas County, Florida and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. The amounts have been reconciled to and are in material agreement with the District's accounting records from which the basic financial statements have been prepared.

2 Noncash Assistance:
Food Donation
Represents the amount of donated food consumed during the fiscal year. Commodities were valued at fair value at the time of donation.

The notes to the financial statements are an integral part of this statement.
COMPLIANCE AND SINGLE AUDIT
Independent Auditors Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Honorable Members of the School Board
District School Board of Pinellas County, Florida
Largo, Florida

We have audited the financial statements of the governmental activities, each major fund, the aggregate discretely presented component units, and the aggregate remaining fund information of the District School Board of Pinellas County, Florida (the "District") as of and for the year ended June 30, 2004, which collectively comprise the District's basic financial statement, and have issued our report thereon dated February 15, 2005. We did not audit the financial statements of the discretely presented component units or the school internal accounts. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District’s internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving internal control over financial reporting that we have reported to management of the District in a separate letter dated February 15, 2005.
Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended for the information of the District School Board, applicable management, applicable federal and state agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

St. Petersburg, Florida
February 15, 2005
Independent Auditors' Report on Compliance with Requirements Applicable to Each Major Program and Internal Control over Compliance in Accordance with OMB Circular A-133

The Honorable Members of the School Board
District School Board of Pinellas County, Florida
Largo, Florida

Compliance

We have audited the compliance of the District School Board of Pinellas County, Florida (the "District") with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2004. The District’s major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the District’s management. Our responsibility is to express an opinion on the District’s compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District’s compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2004.
Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District’s internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the District’s ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying Schedule of Findings and Questioned Costs (Findings No. 04-01 to 04-05).

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above is a material weakness.

This report is intended for the information of the District School Board, applicable management, applicable federal and state agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Ch., Berto Hall, C.P.P.

St. Petersburg, Florida
February 15, 2005
Part I - Summary of Audit Results

1. The auditors’ report on the governmental activities, each major fund, and the aggregate discretely presented component units expresses unqualified opinions. Due to the exclusion of the school internal accounts from the scope of the audit, we have expressed a qualified opinion on the aggregate remaining fund information.

2. No reportable conditions relating to the audit of the financial statements are reported in the Independent Auditors’ Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards.

3. No instances of noncompliance material to the financial statements of the District were disclosed during the audit.

4. Reportable conditions in internal control over a major program were reported in the Independent Auditors’ Report on Compliance with Requirements Applicable to Each Major Program and Internal Control over Compliance in Accordance with OMB Circular A-133, however, none of the reportable conditions was considered to be a material weakness.

5. The auditors’ report on compliance for the major federal award programs for the District expresses an unqualified opinion.

6. The programs tested as major programs were as follows:

<table>

7. The threshold used to distinguish a Types A and B program was $2,751,967.

8. The District was determined not to be a low risk auditee.

Part II – Findings - Financial Statement Audit

None reported.
Part III – Findings and Questioned Costs – Major Federal Award Programs Audit

U.S. Department of Education  
Student Financial Assistance Cluster  
CFDA No.: 84.007, 84.033 and 84.063  
Grantor No: N/A

Finding: 04-01  
Cash Receipts and Disbursements

Criteria: In accordance with OMB Circular A-133, the District is responsible for maintaining internal controls that provide reasonable assurance that the District is managing Federal awards in compliance with applicable regulations and cash management requirements.

Statement of Condition: A reconciliation of financial aid cash receipts and disbursements was not performed during the fiscal year between the District and the Pinellas Technical Education Centers (PTECs), located in St. Petersburg and Clearwater, between the District and the Grant Administration and Payment System (GAPS).

Recommendation: We recommend that the District perform periodic reconciliation’s between the District and the PTEC’s and between the District and the GAPS with the assistance of the third party consultant. This recommendation was made in prior years - see Summary Schedule of Prior Auditing Findings, Finding No. 01-01 and 03-01.

Finding: 04-02  
Special Tests and Provisions

Criteria: Title 34, Section 668.22, code of Federal Regulations, requires institutions to determine whether Pell grant funds were earned by students who withdrew. For those students who are determined to have earned Pell grant funds in excess of Pell grant funds that were disbursed to the student at the time of withdrawal, the difference must be treated as a post-withdrawal disbursement. The institutions must offer to the student any amount of a post-withdrawal disbursement that is not credited to the student's account within 30 days of the date of the institution’s determination that the student withdrew.

Statement of Condition: We found that one of the twelve students tested that withdrew from the PTEC’s were not notified timely of their post-withdrawal disbursement.

Recommendation: We recommend that the PTEC’s should timely notify students in accordance with federal regulations. This recommendation was made in prior years, see Summary Schedule of Prior Auditing Findings, Finding No. 01-04, 02-12 and 03-02.

Finding: 04-03  
Special Tests and Provisions

Criteria: Title 34, Section 668.14(b)(4), Code of Federal Regulations, requires the District to establish and maintain administrative and fiscal procedures and records to ensure proper and efficient administration of student financial assistance funds.

Statement of Condition: Our review disclosed that the District had not performed a reconciliation between the District’s financial assistance accounting records maintained at the District office and the financial assistance disbursement records maintained at the PTEC’s.
In addition, there was no reconciliation between the District and the GAPS and between the District and the cost reimbursement requests.

**Recommendation:** We recommend that the District develop and implement procedures to reconcile the financial assistance records maintained at the PTEC's to the accounting records at the District office on a timely basis. In addition, a reconciliation should be performed between the District and the cost reimbursement requests. This recommendation was made in prior years – see Summary Schedule of Prior Auditing Findings, Finding No. 02-07 and 03-04.

**Finding: 04-04**  
Internal Control

**Criteria:** In accordance with OMB Circular A-133, the District is responsible for establishing and maintaining effective internal controls for administering federal awards.

**Statement of Condition:** The "2003-2004 Pell Grant Worksheet" (a PTEC internal worksheet) includes a section for eligibility verification that includes the date verified and the initials of the individual that performed the verification. Four of the eleven worksheets tested did not include the initials of the individual that performed the verification.

**Recommendation:** We recommend that greater care be taken to ensure the worksheet is completed appropriately to reflect that the internal control procedure for verifying eligibility has been appropriately documented.

**Finding: 04-05**  
Other Matters

**Criteria:** The District is responsible for requesting reimbursement of fund disbursed to student from the U.S. Department of Education.

**Statement of Condition:** The District did not request reimbursement of funds disbursed to students attending the PTEC located in St. Petersburg during the period ended June 30, 2004 until October 2004.

**Recommendation:** We recommend that the District submit reimbursement requests each quarter to ensure that Pell funding is received timely.

Re: Pinellas County District School Board
Management advisory comments.

Gentlemen:

Listed below are responses to the preliminary and tentative findings and recommendations for the fiscal year ended June 30, 2004.

**U.S. Department of Education**
Student Financial Assistance Cluster
CFDA No.: 84.007, 84.033 and 84.063
Grantor No.: N/A

**04-01 Cash receipts and disbursements**

**Cash Receipts and Disbursements reconciliation not performed.**

The district's consultant FAME completed a reconciliation of the 2003-2004 award year and the district will implement procedures to reconcile on a periodic basis.

**04-02 Special Test and Provisions**

**One of Twelve students tested were not timely notified of their post-withdrawal disbursement.**

The district has implemented procedures to ensure timely notification of post withdrawal disbursements.
Special Tests and Provisions

The District had not performed reconciliation between the District’s financial assistance accounting records maintained at the District office and the financial assistance disbursement records maintained at the PTEC’s.

The district has implemented procedures to perform a reconciliation on a monthly and annual basis.

Internal Control

Pell Grant Worksheet did not contain the initials of the individual who performed the eligibility verification.

PTEC center has implemented internal control procedures to ensure eligibility verification.

Other Matters

District did not timely request reimbursement funds for the 2003-2004.

The district will implement internal control procedures to ensure timely reimbursement requests.

Please contact me at 588-6318 if you have any questions or concerns regarding the above. We appreciate the professional manner in which you staff conducted the audit and we look forward to working with you on future audits.

Sincerely

Lansing K. Johansen
Chief Business Officer

cc: Clayton M. Wilcox, Ed. D., Superintendent, Pinellas County Schools
    Fred Matz, Assistant Superintendent, Finance and Business Services

OTHER INFORMATION
Independent Auditors’ Management Letter

The Honorable Members of the School Board
District School Board of Pinellas County, Florida
Largo, Florida

We have audited the financial statements of the District School Board of Pinellas County, Florida (the District) as of and for the year ended June 30, 2004, and have issued our report thereon dated February 15, 2005. These financial statements are the responsibility of the District’s management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of the charter schools and the foundation, reported as discretely presented component units, or the school internal funds. The financial statements of the charter schools, with the exception of The Athenian Academy, Inc., were audited by other auditors.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. We have issued our Independent Auditors’ Report on Compliance and on Internal Control over Financial Reporting based on the audit of the financial statements performed in accordance with Government Auditing Standards dated February 15, 2005, and it should be considered in conjunction with this management letter.

Additionally, our audit was conducted in accordance with Chapter 10.800, Rules of the Auditor General. Those rules (Section 10.804(d)1.) require that we address in the management letter, if not already addressed in the auditors’ report on compliance and internal controls, whether or not inaccuracies, shortages, defalcations, fraud, and/or violations of laws, rules, regulations, and contractual provisions reported in the preceding annual financial audit report have been corrected. There were no such matters reported in the preceding annual financial audit.

As required by the Rules of the Auditor General (Section 10.804(d)2.), the scope of our audit included a review of the provisions of Section 218.503(1), Florida Statutes, regarding financial emergencies. In connection with our audit of the financial statements of the District, the results of our tests did not indicate that the District met any of the specified conditions of a financial emergency contained in Section 218.503(1). In connection with our audit of the District, the results of our tests did not indicate that the District is in a state of financial emergency as a consequence of the
conditions in Section 218.503(1), Florida Statutes. However, our audit does not provide a legal determination on the County’s compliance with this requirement.

The Rules of the Auditor General (Section 10.804(d)3.) requires disclosure of any recommendations to improve the District present financial management, accounting procedures, and internal controls. See Appendix A to this document for our comments and recommendations.

The Rules of the Auditor General (Section 10.804(d)4.) states that a management letter shall include a statement as to whether or not the District complied with Section 218.415, Florida Statutes, regarding the investment of public funds. In connection with our audit of the financial statements of the District, the results of our tests did not indicate that the District was in noncompliance with Section 218.415 regarding the investment of public funds. However, our audit was not directed toward obtaining knowledge regarding the District’s compliance with this requirement.

The Rules of the Auditor General (Section 10.804(d)5.) require disclosure in the management letter of the following matters if not already addressed in the auditors’ reports on compliance and internal controls: (a) violations of laws, rules, regulations, and contractual provisions or abuse that have occurred, or are likely to have occurred; (b) improper expenditures discovered within the scope of the financial audit which may or may not materially affect the financial statements; (c) deficiencies in internal control that are not reportable conditions. See Appendix A to this document for our comments and recommendations.

We wish to thank the District’s finance and accounting personnel and others involved in the conduct of the audit for their courtesy and cooperation.

This report is intended for the information of the School Board, the District’s management, specific legislative or regulatory bodies, applicable federal and state agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

St. Petersburg, Florida
February 15, 2005
Appendix A
Current Year Management Letter Comments
June 30, 2004

Capital Assets

Property Records
The capital assets additions per property records were approximately $3.1 million less than the capital outlay expenditures recorded in the governmental funds. In addition, there was no reconciliation performed to verify that that amounts recorded in property records agree to TERMS.

We also noted that property records recorded a laptop computer at a cost that was $30,000 more than the actual cost as a result of a keying error. In addition, it appears there are no internal controls to ensure that controls totals for keying capital asset additions are accurate.

We recommend that the capital outlay expenditures be reconciled with the detailed property records annually. Internal controls should be established to ensure that controls totals for keying capital asset additions are verified timely.

Capital Assets

We noted the following regarding capital assets additions, deletions and accumulated depreciation:

- $223 million of construction costs were classified as construction in progress at fiscal year end for construction projects that had been completed at fiscal year. As a result, depreciation expense on the statement of activities was understated by $4.4 million.

- There was a $2.1 million understatement of the total costs expended for a certain “maintenance purchase order” that should have been recorded as construction in progress. We also noted that the schedules of open construction and maintenance purchase orders that were used to determine expenditures that remain in construction in progress at fiscal year were not reviewed for accuracy and completeness.

- The excel spreadsheet that was used to calculate building depreciation had incorrect formulas that resulted in depreciation expense being calculated incorrectly.

- The schedule of changes in construction in progress had certain projects that had expenditures for construction in progress at fiscal year end that resulted in a negative balances totaling $1.3 million which reduced construction in progress additions.

We recommend that the construction projects that have been completed at fiscal year end be determined based on certification from project architect that construction has been substantially complete. Greater care should be taken when compiling the capital assets schedules, recording the change in capital assets and accumulated depreciation in the District-wide financial statements. Linking and other excel spreadsheet features should be utilized to reduce the likelihood of errors. Another alternative would be to consider purchasing depreciation software. The capital asset
schedules should be reviewed for accuracy and completeness prior to recording amounts in the District-wide financial statement and submission for audit.

AFR / GASB 34 Conversion

There were sixteen adjustments to correctly classify certain account balances to the appropriate line on the District-wide financial statements.

We recommend that the Statement of Net Assets and Statement of Activities of the AFR be prepared with more attention to detail to ensure that the District-wide financial statements are accurately reported. In addition, the AFR should be reviewed for accuracy and completeness prior to submission to the Department of Education. This recommendation was also made in FY03.

Component Unit

We noted that the Pinellas County Education Foundation, a component unit of the District, had not adopted GASB 34 for the year ended June 30, 2004.

We recommend that the District notify the Foundation of implementation of GASB 34 for financial reporting purposes. This recommendation was also made in FY03.
