MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management of the District School Board of Pinellas County (the District) has prepared the following discussion and analysis to: (a) assist the reader in focusing on significant financial issues; (b) provide an overview and analysis of the District's financial activities, (c) identify changes in the District's financial position; (d) identify material deviations from the approved budget; and (e) highlight significant issues in individual funds.

Because the information contained in the Management's Discussion and Analysis (MD&A) report is intended to highlight significant transactions, events and conditions, it should be considered in conjunction with the District's financial statements contained in this document.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2011-12 fiscal year are as follows:

- In total, net assets decreased \$49.3 Million, which represents a 2.4 percent decrease from the 2010-11 fiscal year.
- General revenues total \$898.7 Million or 93.4 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions total \$63.3 Million or 6.6 percent of all revenues.
- Expenses total \$1.0 Billion; only \$63.3 Million of these expenses was offset by program specific charges, with the remainder paid from general revenue.
- At the end of the fiscal year the fund balance of the General Fund totals \$60.5 Million, or 20.4 percent of total General Fund revenues. These fund balances include \$10.3 Million of non-spendable funds, \$20.9 Million of restricted funds, \$22.6 Million of assigned funds and \$6.7 Million of unassigned funds.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements consist of three components:

- Government-wide financial statements ("District-wide")
- Fund financial statements
- Notes to the financial statements

In addition, this report presents certain required supplementary information, which includes Management's discussion and analysis.

The major features of the District's financial statements, including the portion of the activities reported and the type of information contained, is shown in the following table.

DISTRICT-WIDE FINANCIAL STATEMENTS

The District-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net assets and a statement of activities that are designed to provide consolidated financial information about the governmental and business-type activities of the Primary Government presented on the accrual basis of accounting. The statement of net assets provides information about the government's financial position--and its assets and liabilities--using an economic resources measurement focus. The difference between the assets and liabilities, the net assets, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net assets, the results of operations, during the fiscal year. An increase or decrease in net assets is an indication of whether the District's financial health is improving or deteriorating.

The District-wide statements present the District's activities in two categories:

- Governmental Activities – This represents most of the District's services, including its educational programs: basic, vocational, adult, and exceptional education. Support functions, such as transportation and administration, are also included. Local property taxes and the State's education finance program provide most of the resources that support these activities.
- Component Units – The District presents fifteen separate legal entities in this report. Although legally separate organizations, the component units are included in this report because the units meet the criteria for inclusion provided by generally accepted accounting principles.

Over a period of time, changes in the District's net assets are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the District's property tax base, student enrollment, and the condition of the District's capital assets including its school buildings and administrative facilities.

FUND FINANCIAL STATEMENTS

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law, while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types.

All of the District's funds may be classified within one of three broad categories:

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the District-wide financial statements. However, the governmental funds utilize a spendable financial resources measurement focus, rather than the economic resources measurement focus found in the District-wide financial statements. This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and out flows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Consequently, the governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the District-wide financial statements. To facilitate this comparison, both the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

Proprietary Fund

The internal service fund is used to account for the District' self-insurance programs.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the District-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

DISTRICT-WIDE FINANCIAL ANALYSIS

Net Assets – Below is a summary of the District's net assets for the year ended June 30, 2011, as compared to June 30, 2012.

	2011	2012	Increase (Decrease)	Percentage change

The District's net assets decreased 2.47% to \$1.98 billion. This was attributed to a combination of a decrease in total assets and an increase in total liabilities. The District reported an unrestricted net asset deficit of \$26.6 million, due to the accounting methodology required by GASB-34. The calculation of net assets uses an historical cost of school buildings that may not accurately reflect the true value. Pinellas County's schools and support buildings are in excellent condition as a result of sufficient annual funds appropriated for maintenance and repair.

Financial Analysis of Individual Funds

The District completed the year with a total governmental fund balance of nearly \$291.68 million, a decrease of \$38.9 million over 2011 fund balance of \$330.6 million.

The General Fund had a \$ 32.2 million decrease in fund balance to \$60.5 million.

The other major capital outlay fund changed as follows:

- Capital Improvement Section 1011.71(2) Fund increased \$308 thousand to \$201.1 million. This increase is a result of reduction of expenditures of construction needs.

Other Governmental Funds experienced a decrease of fund balance from \$39.3 million in 2011 to \$30.1 million in 2012, most of which is attributable to a decrease in expenditures for non-major capital outlay funds for future construction needs.

Budget Variance in the General Fund

Overall budgeted revenue exceeded actual by a small amount. This change was due to better than anticipated tax collections. Appropriations experienced an increase from original budget to final. The financial model used by the District to predict future needs suggested some realignment resulting in expenditure adjustments.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

By the end of fiscal year 2012, the District had invested slightly more than \$1.8 billion in a broad range of capital assets, including buildings, sites and equipment. This amount represents a net decrease of \$14 million from 2011. More detailed information concerning capital assets can be found in Note 6 to the financial statements. Accumulated depreciation on these assets totaled almost \$761,526,601 million.

- Asset acquisitions totaled \$139.7million.
- The District disposed of \$72.8 million in assets.
- The net change to construction in progress reflected a net decrease of \$26.3 million.
- The District acquired technology assets through capital lease totaling \$15,116,138 million.
- The District recognized depreciation expense of \$83.7 million for the year.

LONG-TERM DEBT

At year-end, the District had \$161.8 million in general obligation bonds and other long-term debt outstanding – a decrease of 3.55% from fiscal year end 2011. In addition, the District has implemented the requirements for GASB 45, Accounting for Other Post Employment Benefits and as a result has recorded a \$8.3 million liability for June 30, 2012. (More detailed information about the District's long-term liabilities is presented in Note 10 to the financial statements.)

Significant Economic Factors

The District continues to face funding challenges. The State has elected to participate in the American Recovery and Reinvestment act (for the third year) in order to supplement declining revenues in 2011-2012. As a result, the District received approximately \$13.3 million dollars of various ARRA Program funding. This is the final year of most ARRA funding. After this year, only Race to the Top will continue.

Requests for Information

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE GOVERNMENT-WIDE STATEMENT OF NET ASSETS
For the Fiscal Year Ended June 30, 2012

Total Fund Balances - Governmental Funds \$291,681,903.04

Amounts reported for *governmental activities* in the statement of net assets are different because:

Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds. 1,832,955,740.85

Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets. 4,223,681.86

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds.

Liability for Compensated Absences	(91,944,353.85)
Bonds Payable	(24,760,000.00)
Post Employment Benefits	(8,333,732.00)
Capital Lease	(20,126,433.00)
	<u>(145,164,518.85)</u>

Total Net Assets - Governmental Activities \$1,983,696,806.90

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2012

Net Change in Fund Balances - Governmental Funds (\$38,985,798.96)

Amounts reported for *governmental activities* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of capital outlay in excess of depreciation in the current period.

23,750,945.73

The statement of activities reflects only the gain/loss on the sale of assets, whereas the governmental funds include all proceeds from these sales. Thus, the change in net assets differs from the change in fund balances by the undepreciated cost of assets sold.

(35,717,618.00)

Revenues reported in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. Of the total reported \$10,154,434.27 is obligations under capital lease.

12,794,434.27

In the statement of activities the cost of compensated absences is measured by the amounts earned during the year, while the governmental funds expenditures are recognized based on the amounts actually paid for leave used. This is the amount of vacation and sick leave earned in excess of the amount used in the period.

6,218,878.73

The net change in the liability for postemployment health care benefits is reported in the government-wide statements, but not in the governmental funds statements.

(40,715.00)

Certain capital assets acquired during the current period were financed with a capital lease. The capital lease was reported in the governmental funds as a source of funding. However, in the statement of net assets the capital leases were recorded as a long term liability.

(15,116,138.00)

Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. The net revenue of internal service funds is reported with governmental activities.

(2,190,798.84)

Change in Net Assets of Governmental Activities (\$49,286,810.07)

1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

➤ **Reporting Entity**

The Pinellas County District School Board (the Board) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The Pinellas County School District (District) is considered part of the Florida system of public education. The governing body of the District is the Board, which is composed of seven elected members. The appointed Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Pinellas County.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any entities for which the Board is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading or incomplete.

Based on the application of these criteria, the following component units are included within the District's reporting entity.

- **Discretely Presented Component Units** - The component unit columns in the government-wide financial statements include the financial data of the District's component units.

- The Academie Da Vinci Charter School, Inc.;
- Alfred Adler Charter School

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The charter schools are considered to be component units of the District, since they are fiscally dependent on the District to levy taxes for their support.

The financial data reported on the accompanying statements was derived from the charter schools' audited financial statements for the fiscal year ended June 30, 2012. The audit reports are filed in the District's administrative offices.

➤ **Basis of Presentation**

Government-wide Financial Statements - Government-wide financial statements, i.e. the statement of net assets and the statement of activities, present information about the District as a whole. Government-wide financial statements are prepared using the economic resources measurement focus. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function.

Depreciation expenses, which can be associated with a specific program or activity, are allocated to the related function, while remaining depreciation expense is reported as unallocated. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

The effects of interfund activity have been eliminated from the government-wide financial statements.

Fund Financial Statements – Fund financial statements report detailed information about the District in the governmental, proprietary, and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Non-major funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, reconciliation is presented with each of the governmental fund financial statements.

The District reports the following major governmental funds:

- General Fund - to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- Capital Projects - Capital Improvement Section 1011.71(2) Fund – to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- Other Federal Programs – to account for funds received from the Federal Government directly or indirectly through the state. These Federal awards are for the enhancement of various programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies.

Additionally, the District reports the following fund types:

- Internal Service Fund – to account for the District's individual self-insurance programs.
- Special Revenue Funds - to account for the financial resources of the school food service program and certain Federal, State and local grant program resources.
- Debt Service – State Board of Education Bond Fund – to account for the accumulation of resources for, and the payment of, debt principal, interest, and related costs for the Series 2005-B and Series 2010-A State School Bonds.
- Agency Funds - to account for resources of the school internal funds, which are used to administer moneys, collected at several schools in connection with school, student, athletic, class, and club activities. In addition, to account for resources held by the District as custodian for others.

➤ **Basis of Accounting**

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. *Basis of accounting* relates to the *timing* of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are prepared using the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are prepared using the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 21 days of the end of the current fiscal year. When grant terms provide that the expenditure of

resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred. The principal exceptions to this general rule are: (1) prepaid items are

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

generally not accrued; (2) interest on long-term debt is recognized as expenditures when due; and (3) expenditures related to liabilities reported as long-term debt are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Proprietary Funds are accounted for as proprietary activities under standards issued by the Financial Accounting Standards Board through November 1989 and applicable standards issued by the Governmental Accounting Standards Board. The proprietary fund distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services. The principal operating revenues of the District's internal service fund are charges for workers' compensation, general liability, and auto liability self-insurance and claims. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed. When committed, assigned or unassigned resources are available for use in governmental fund financial statements, it is the district's policy to use committed resources first, followed by assigned resources, and then unassigned resources as they are needed.

➤ **New Pronouncement**

The GASB issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions (GASB 54)* effective for reporting periods beginning after June 15, 2010. The statement establishes fund balance classifications, provides for a hierarchy of spending constraints for spendable resources and requires disclosure of nonspendable and spendable resources. The District has disclosed information about fund balance reporting in a subsequent note on fund balance reporting.

➤ **Deposits and Investments**

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depositary insurance and collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes. The statement of cash flows considers cash as those accounts used as demand deposit accounts.

Investments of cash for current expenditures are held in three separate banks, a money market account consisting of three separate money market funds, and the District's custody account, which is also swept into a fourth money market fund. These funds are reported at amortized cost. The reported value of the pool is the same as the fair value of the pool shares.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investments of funds not needed for current expenditures consist of U.S. Agency Securities, collateralized mortgage obligations, corporate asset backed securities, and an institutional bond are reported at fair value. Types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

➤ **Inventories**

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost on a moving average basis, except the United States Department of Agriculture surplus commodities are stated at their fair value, as determined at the time of donation to the District's food service program by the Florida Department of Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used, rather than when purchased.

➤ **Use of Estimates**

The preparation of the basic financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

➤ **Capital Assets**

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net assets but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation.

Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and fixed equipment	50 years
Furniture, fixtures and equipment	5 – 20 years
Motor vehicles	5 – 15 years
Audio visual materials and computer software	5 – 10 years

Current-year information relative to changes in general fixed assets is described in a subsequent note.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

➤ **Long Term Liabilities**

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net assets. In the governmental-wide financial statements, bonds and other long-term obligations are not recognized as liabilities until due.

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability is reported in the governmental fund financial statements only for the portion of compensated absences expected to be paid using expendable available resources.

Changes in long-term debt for the current year are reported in a subsequent note.

➤ **State Revenue Sources**

Revenues from State sources for current operations are primarily from the Florida Education Finance Program administered by the Florida Department of Education (Department), under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the Board determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE's and related data and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of 5 months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations, based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs. The Department generally requires that categorical educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted for the unencumbered balance of categorical educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay (PECO) money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department. Accordingly, the District recognizes the allocation of Public Education Capital Outlay as deferred revenue until such time as an encumbrance authorization is received.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

➤ **District Property Taxes**

The School Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Pinellas County Property Appraiser and are collected by the Pinellas County Tax Collector.

The School Board adopted the tax levy, for the 2011-12 fiscal year on September 13, 2011. Tax bills are mailed in October; and taxes are payable between November 1 of the year assessed and March 31 of the following year, at discounts of up to 4 percent for early payment.

Taxes become delinquent on April 1 of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the School Board adopts the tax levy. Property tax revenues are recognized in the governmental financial statements when the District receives taxes, except that revenue is accrued for taxes collected by the Pinellas County Tax Collector at fiscal year-end but not yet remitted to the District. Any delinquent taxes collected after June 30, relating to June of that fiscal year, are accrued and delinquent tax revenue deferral is recorded. Millages and taxes levied for the current year are presented in a subsequent note.

➤ **Federal Revenue Sources**

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to and approved by various granting agencies. For Federal awards, in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

2 – BUDGETARY COMPLIANCE AND ACCOUNTABILITY

➤ Budgetary Information

The District follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds as described below:

Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.

Appropriations are controlled at the major object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any School Board meeting prior to the due date for the annual financial report.

Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.

Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations. However certain state categorical funds and other designated projects carry forward.

3 – INVESTMENTS

As of June 30, 2012, the School Board had the following investments: (Modified duration is in years)

Investment	Fair Value	Six months or less	Greater than Six months to Two years	Greater Than Two years to Four Years	Greater Than Four Years to Six Years	Greater Than Six Years

Interest Rate Risk

- District policies limit the length of investments as follows: (1) the weighted average duration of the investment portfolio shall not exceed five years and (2) the maximum duration of any security purchased shall not exceed eight years. The District uses modified duration to determine the maturity of its investments in obligations of United States Government Agencies and Instrumentalities.

Note 3 – INVESTMENTS (continued)

As of June 30, 2012, the District had the following interest rate risk by Fund:

Investment	% of Total	Fair Value	Investment Maturity Groupings

➤ **Credit Risk**

District policies for investments in:

- The District's investments totaling \$272,694,711 are reported at fair value. These investments had the top ratings by Standard and Poor's, Moody's, or Fitch.
- Money market funds with the highest credit quality rating from a nationally recognized rating agency. As of June 30, 2012, the District had investments of \$2,635,438 in the First America Government Obligations Fund, Morgan Stanley Prime, Morgan Stanley Government, Morgan Stanley Government Securities Funds, Federated Prime Cash Obligations Fund, Western Asset Institutional Cash Reserves, Goldman Sachs Financial Square Fund, and Bank of America Money Market Reserves Fund. All funds are rated AAAm (Standard and Poor's) and Aaa-mf (Moody's).

The District has investments with a fair value of \$36,468,045 in the Core Fund as of June 30, 2012.

Note 3 – INVESTMENTS (continued)

- Due to the fund managers changing rating agencies, the fund was not rated as of June 30, 2012. However, Moody's issued a rating of Aaa-bf on August 9, 2012.

The District had \$49,209 invested in the State Board of Administration's Florida Prime fund, which is rated AAAm by Standard and Poor's. The District has \$925,268 remaining in State Board of Administration's Fund B. This fund is not rated.

➤ **Custodial Credit Risk**

- Section 218.415(18), Florida Statutes, requires the District to earmark all investments and 1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body's interest in the security; 2) if in book entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any other state or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or 3) if physically issued to the holder but not registered with the issuer or its agents, must be immediately placed for safekeeping in a secured vault. All investments of the District are held in the District's name. The District does not have a formal investment policy that addresses custodial credit risk.
- The District's \$272,694,711 of investment securities are held by the District's custodial agent in the name of the District.

➤ **Foreign Currency Risk**

The District does not invest in foreign investments.

4 – INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The following is a summary of interfund receivables and payables reported in the fund financial statements:

	Interfund	
	Receivables	Payables
Major Funds:		
General	\$ 17,752,259	\$ 2,469,353
Capital Projects:

	\$ 21,607,755	\$ 20,126,433	\$ 1,481,322

The imputed interest rate is 3.43% on the bus leases and 4.04% to 7.69% on the technology.

9 – BONDS PAYABLE

Bonds payable at June 30, 2012, were as follows:

	Amount	Interest Rates (Percent)	Maturity
State School Bonds:			
Series 2010-A, Refunding	\$ 145,000	4.5-5	2021
Series 2005-B, Refunding	24,615,000	5	2020
Total Bonds payable	\$ 24,760,000		

The State School Bonds were by the State Board of Education (SBE) on behalf of the District to finance capital outlay projects. The bonds mature serially and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of Debt Service Fund resources, and compliance with reserve requirements are administered by the SBE and the State Board of Administration.

Note 9 – BONDS PAYABLE (continued)

Annual requirements to amortize the bond debt outstanding as of June 30 are as follows:

	Total	Principal	Interest
2013	\$ 4,012,850.00	\$ 2,775,000.00	\$ 1,237,850.00
2014	4,009,100	2,910,000	1,099,100
2015	3,988,600	3,035,000	953,600
2016-2020	18,391,900	16,025,000	2,366,900
2021	15,750	15,000	750
	<u>\$ 30,418,200</u>	<u>\$ 24,760,000</u>	<u>\$ 5,658,200</u>

10 – CHANGES IN LONG-TERM LIABILITIES

The following is a summary of changes in long-term liabilities:

	Beginning Balance	Additions	Deletions	Ending Balance	Due in One Year
Governmental Activities:					
Compensated absences payable	\$ 98,163,233	\$ 5,156,798	\$ 11,375,676	\$ 91,944,354	\$ 11,629,867
Estimated insurance claims payable	16,747,136	3,491,720	3,582,887	16,655,969	3,881,623
Bonds payable	27,400,000		2,640,000	24,760,000	2,775,000
Post employment health care benefits	8,293,017	3,528,870	3,488,155	8,333,732	
Obligations under capital leases	17,181,856	15,116,138	12,171,561	20,126,433	7,916,878
Total	\$ 167,785,242	\$ 27,293,525	\$ 33,258,279	\$ 161,820,488	\$ 26,203,368

For the governmental activities, compensated absences are generally liquidated with resources of the General Fund.

11 - RESERVE FOR ENCUMBRANCES

Appropriations in governmental funds are encumbered upon issuance of purchase orders for goods and services. Even though appropriations lapse at the end of the fiscal year, unfulfilled purchase orders of the current year are carried forward and the next year's appropriations are likewise encumbered.

The Florida Department of Education requires that fund balances be assigned at fiscal year-end to report an amount likely to be expended from the 2011-12 fiscal year budget as a result of purchase orders outstanding at June 30, 2012.

12 - SCHEDULE OF STATE REVENUE SOURCES

The District's State revenue for the year ended June 30, 2012 follows:

	<hr/>
	<u>\$ 295,917,262</u>

Accounting policies relating to certain State revenue sources are described in Note 1.

13 - STATE RETIREMENT PROGRAM

➤ **Plan Description**

All regular employees of the District are covered by the Florida Retirement System, a State administered cost-sharing multiple-employer defined benefit retirement plan (Plan). Plan provisions are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code, wherein Plan eligibility, contributions, and benefits are described in detail. Essentially all regular employees of participating employers are eligible and must enroll as members of the Plan. Benefits vest at six years or number of years of service. The Plan also includes an early retirement provision, but imposes a penalty for each year a member retires before the specified retirement age. The Plan provides retirement, disability, and death benefits and annual cost-of-living adjustments, as well as supplements for certain employees to cover social security benefits lost by virtue of retirement system membership.

A Deferred Retirement Option Program (DROP) was established effective July 1, 1998, subject to provisions of Section 121.091, Florida Statutes. It permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payment while continuing employment with a Florida Retirement system employer. An employee may participate in the DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the Florida Retirement System Trust Fund and accrue interest.

The Plan's financial statements and other supplemental information are included in the comprehensive annual financial report of the State of Florida, which may be obtained by contacting the Florida Department of Financial Services in Tallahassee, Florida. Also, an annual report on the Plan, which includes its financial statements, required supplemental information, actuarial report, and other relevant information, may be obtained from the State of Florida, Division of Retirement in Tallahassee, Florida.

Note 13 - STATE RETIREMENT PROGRAM (continued)

➤ **Funding Policy**

The contribution rates for Plan members are established, and may be amended, by the State of Florida. During the 2011-2012 fiscal year, contribution rates were as follows:

Class or Plan	Percent of Gross Salary	
	Employee	Employer (A)
Florida Retirement System:		
Regular		4.91
County elected officers		11.14
Senior management service class		6.27
Special risk		14.10
Re-employee retiree		4.91
Teacher's retirement system, plan E	6.25	11.35
State and County officers and employee's		
Retirement system, plan B	4.00	9.10
Deferred retirement option plan		4.42

Note: (A) Employer rates include the post-retirement health insurance supplements of 1.11% and 0.03% administrative educational fee.

The District's liability for participation in the Plan is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the District. The District's contributions to the Plan (including employee contributions) for the fiscal years ending June 30, 2010, 2011, and 2012 totaled \$55,875,700, \$60,835,543 and \$40,131,586 respectively, which were equal to the required contributions for each fiscal year.

14 - TAX DEFERRAL PLANS AND OTHER BENEFITS

The District allows employees to participate in a 401(a) qualified retirement plan. Participation is required for employees that are retiring, terminating or entering DROP and have accumulated at least \$2,500 of eligible terminal leave benefits. Contributions to the plan are made on a pre-tax basis. The maximum plan contribution cannot exceed 100% of plan year compensation or \$50,000, whichever is less. Federal income taxes on this compensation are deferred until distributions are taken. Employee contributions to the plan were \$10,522,952 for the period ended June 30, 2012.

The District offers eligible employees participation in an optional tax deferred annuity and 457 program. The Internal Revenue Service, under code section 403(b), allows employees of School Boards to defer a portion of their income from federal income tax. The deferred earnings are placed in an investment vehicle selected by the employee, with the principal and interest tax deferred until withdrawn. The contributions for the tax deferred annuity 403(b) and 457 for the fiscal year ended June 30, 2012 were \$10,578,808 and \$2,296,593 respectively.

Note 14 - TAX DEFERRAL PLANS AND OTHER BENEFITS (continued)

In addition, the district has available a Roth 403(b) that employees may elect. Contributions to the Roth 403(b) totaled \$1,210,227 for 2012.

The District makes contributions to employee's health insurance payments based upon elected coverage. The total amount contributed on behalf of the employees, for the year ended June 30, 2012 was \$97,200,935.08.

15 – CONSTRUCTION CONTRACT COMMITMENTS

There were no major construction contract commitments as of fiscal year-end 2011-2012. Student enrollment has been declining over the past several years and the state has not allocated any money for "new construction". The capital outlay dollars that were spent were on Minor Capital Outlay projects, Maintenance projects and Infrastructure projects. Some examples would include roof replacements, chiller installations, replacement of ceilings and lights and various other undertakings.

16 - RISK MANAGEMENT PROGRAMS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees, students, or visitors; and natural disasters.

The District partners with an insurance broker to obtain insurance coverage for losses that are not appropriate for the District to fully retain as self-insured exposures. The insurance purchased provides coverage for losses in excess of the workers' compensation, liability and property deductibles as well as coverage, subject to a deductible, for other losses, which may occur from employment practices, errors and omissions and employee dishonesty, etc. This insurance protection limits the District's risk and financial exposure and provides protection from lawsuits.

The District contracts with a third party administrator that adjusts workers compensation and liability claims, subrogates claims, represents the District in mediations and assists attorneys with litigation.

At June 30, 2012, a liability of \$16,655,969 was recorded for estimated insurance claims payable for claims incurred but not reported for worker's compensation, general liability and vehicle liability. The estimated insurance claims payable was recorded using the discounted method, which was actuarially determined.

Note 16 - RISK MANAGEMENT PROGRAMS (Continued)

The following schedule represents the changes in claims liability for the past two fiscal years for the District's self-insurance program:

	Beginning of Year	Claims	Claims Payments	End of Year
2011	18,452,450	2,312,182	(4,017,496)	16,747,136
2012	16,747,136	3,491,720	(3,582,887)	16,655,969

Property protection, boiler and machinery, errors and omissions, employment practices liabilities, employee dishonesty, and other coverage's deemed necessary by the Board are provided through purchased commercial insurance with deductibles for each line of coverage. In addition, health, dental, life and income protection coverage for District employees were offered through purchased commercial insurance.

17 – POST EMPLOYMENT HEALTH CARE BENEFITS

➤ **Plan Description**

The Postemployment Health Care Benefits Plan is a single-employer defined benefit plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the District and eligible dependents, may continue to participate in the District's fully insured group health plan. The District subsidizes the premium rates paid by the retirees by allowing them to participate in the plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher cost to the plan on average than those of active employees. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The Postemployment Health Care Benefits Plan does not issue a stand-alone report and is not included in the report and is not included in the report of a Public Employee Retirement System (PERS) or another entity.

➤ **Funding Policy**

For the Postemployment Health Care Benefits plan, contribution requirements of the District are established and may be amended through action from the Board. The District has not advanced-funded or established a funding methodology for the annual Other Postemployment Benefit (OPEB) costs or the net OPEB obligation. For the 2011-12 fiscal year, retirees and eligible dependants received postemployment health care benefits. The District provided required contributions of \$3,488,155 toward annual OPEB costs, comprised

Note 17 – POST EMPLOYMENT HEALTH CARE BENEFITS (continued)

of benefit payments made on behalf of retirees for claims expenses (net of reinsurance), administrative expenses, and reinsurance payments, and net of retiree contributions totaling \$6,470,505. Required contributions are based on projected pay-as-you-go financing.

➤ **Annual OPEB Cost and Net OPEB Obligation**

The following table shows the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation:

		Fiscal Year ending June 30, 2012
(1)	Normal Cost	\$ 2,030,007
(2)	Amortization of Unfunded Accrued Liability	1,328,967
(3)	Interest	134,359
(4)	Annual Required Contribution	3,493,333
(5)	Interest on Net OPEB Obligation (NOO)	331,721
(6)	Amortization of NOO	(296,184)
(7)	Total Expense or Annual OPEB Cost (AOC)	3,528,870
(8)	Actual Contribution Toward OPEB Cost	(3,488,155)
(9)	Increase in NOO	40,715
(10)	NOO Beginning of Year	8,293,017
(11)	NOO End Of Year	\$ 8,333,732

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of June 30, 2012, was as follows:

Fiscal Year	AOC	Contribution	Percent of AOC	NOO
			Contributed	
2009/2010	4,843,008	1,754,549	36.2%	7,796,142
2010/2011	3,521,317	3,024,442	85.9%	8,293,017
2011/2012	3,528,870	3,488,155	98.8%	8,333,732

Note 17 – POST EMPLOYMENT HEALTH CARE BENEFITS (continued)

➤ **Funded Status and Funding Progress**

As of June 30, 2012, the actuarial accrued liability for benefits was \$31,732,418, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability of \$31,732,418. The covered payroll (annual payroll for active participating employees) was \$555,740,506,852 for the fiscal year 2011-12, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 5.7%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Examples include assumptions about the future employment and termination, mortality and the health care cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

➤ **Actuarial Methods and Assumptions**

Projection of health benefits for financial reporting purposes are based on substantive plan provisions, as understood by the employer and participating members, and include the types of benefits provided by the time of each valuation and the historical pattern of sharing of benefit cost between the employer and participating members. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The District's OPEB actuarial valuation as of August 24, 2012, used the entry age normal cost actuarial method to estimate the unfunded actuarial liability as of June 30, 2012, and the 2011-12 fiscal year annual required contribution. Because the OPEB liability is currently unfunded, the actuarial assumptions include a 4 percent rate of return on invested assets, which is the District's long-term expectation of investment returns under its investment policy. The actuarial assumptions also included a payroll growth rate of 4.5 percent per year and an annual healthcare cost trend rate of 9.5 percent for the 2011-2012 fiscal year, and an annual rate of 5.5 percent after six years. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 2012 was 25 years.

18 - LITIGATION

The District is a party to several lawsuits and claims, which it is vigorously defending. Such matters arise out of the normal course of its operation, some of which are covered by insurance policies. While the results of litigation cannot be predicted with certainty, management believes the final outcome of such litigation will not have a material adverse effect on the District's financial position.

19 – GRANTS AND CONTRACTS

The District participates in various federally assisted grant programs that are subject to review and audit by the grantor agencies. Entitlement of these resources is generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowances resulting from a federal audit may become a liability of the District.

20 – FUND BALANCE REPORTING

The District adopted GASB 54 as part of its 2010-2011 fiscal year reporting. Implementation of GASB 54 is required for fiscal years beginning after June 15, 2010. The intention of the GASB is to provide a more structured classification of fund balance and to improve the usefulness of fund balance reporting to the users of the District's financial statements. The reporting standard establishes a hierarchy for fund balance classifications and the constraints imposed on the uses of those resources.

GASB 54 provides for two major types of fund balances, which are nonspendable and spendable. Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories and principal (corpus) of an endowment fund. The District has nonspendable funds related to an endowment the Blair Estate.

In addition to the nonspendable fund balance, GASB 54 has provided a hierarchy of spendable fund balances, based on a hierarchy of spending constraints.

- Restricted: fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.
- Committed: fund balances that contain self-imposed constraints of the government from its highest level of decision-making authority.
- Assigned: fund balances that contain self-imposed constraints of the government to be used for a particular purpose.
- Unassigned: fund balance of the general fund that is not constrained for any particular purpose.

The District has classified it fund balances with the following hierarchy:

Nonspendable: The District has classified inventories, pre-paid expenditures and endowments as nonspendable.

Nonspendable (271X):

General Fund:

Inventory	\$ 4,350,842.09
Pre-paid Expenditures	5,983,954.53
Permanent Fund Endowment	
(Blair Estate)	152,135.52
Food Service Inventory	1,186,078.50
Total Nonspendable	\$ 11,673,010.64

Note 20 – FUND BALANCE REPORTING (continued)

Spendable: The District has classified the spendable fund balances as *Restricted*, *Assigned* and *Unassigned* and considered each to have been spent when expenditures are incurred. The District currently has no funds classified as *Committed*.

- Restricted for State Categorical Programs, Food Service, Debt Service and Capital Projects except for Capital Fund 0391 which is classified as assigned for encumbrances:

Federal Laws, Florida Statutes and local ordinances require that certain revenues be specifically designed for the purposes of state categorical programs, food service, debt service and capital projects.

Restricted (272X):

General Fund:

Restricted State Carryovers	\$ 1,581,157.52

Notes: (1) Basis of Presentation. The Schedule of Expenditures of Federal Awards represents amounts expended from Federal programs during the fiscal year as determined based on the modified accrual basis of accounting. The amounts reported on the Schedule have been reconciled to and are in material agreement with amounts recorded in the District's accounting records from which the basic financial statements have been reported.

(2) Noncash Assistance
National School Lunch Program - Represents the amount of donated food used during the fiscal year. Donated foods are valued at fair value as determined at the time of donation.
