ABOUT US

McMullen Booth Elementary provides a warm, caring, and challenging environment that recognizes a student’s natural curiosity and creativity. Our International Studies program develops the whole child while fostering a lifelong love of learning. Students use inquiry to discover their place in the world, find their voice, and reflect on their learning. Our transdisciplinary approach encourages learning across subject areas while investigating big ideas and global issues. We inspire students to make a difference as responsible and engaged members of the school community and as citizens of the world.
