There are different graduation pathways available for students starting at a partner Florida Community or State College (FCS) institution. Earn your Associate degree then transfer to the University of South Florida to receive your Bachelor's degree. Review the pathways available then apply to the partner FCS institution where you want to start your path.

Students who enter the fuse program will be expected to:

- Have intention of transferring to USF
- Complete an Associates of Arts degree within 3 years and maintain a minimum cumulative 2.0 GPA. By meeting these requirements, students will be guaranteed admission to USF
- Students seeking admission to limited or restrictive access programs will also have to meet additional specific prerequisites such as a higher GPA or test scores. These can be found in strategically designed Graduation Paths.
- Meet regularly with advising at the State or Community College and a USF campus
